London, October 8 .- The postoffice authorities have issued a notice to the public that the land wires to the west of England and Ireland are prostrated by the heavy gales which have prevailed during the last twenty-four hours. Two of the crew of a Lowestoft Trawler were carried overboard by the gale and drowned

The storm has been the heaviest known in Great Britain and Ireland in years. On the west coast the gales were acc nied by excessive tides. The town of Llaneily, Wales, is entirely isolated by the water, and it is impossible for the inhabitants to leave. Hundreds of houses and a number of churches are flooded. Three persons were drowned at Llanelly. Part of the landing stage at Liverpool is impassable and the ferry at Cheshire has stopped run ning, owing to the inability to land pas

# OFFICIAL RETURNS NEARLY ALL IN against Mr. Wright. Every white republican and all of the colored leaders who have aspirations to office in case of Mcthese people could influence. In most cases they went actively to work for Wright and their work told in many counties. Then the Buck circular appealed to and influenced another clement. That was the gold irreconcilables who still wear the cloak

The failure of the Palmer-Buckner state

convention to indorse the state ticket was supplemented by secret work against it The returns show that in "gold" localities the slump was the greatest. Of cours there were notable exceptions to this Savannah and Augusta, for instance; and notable individual exceptions. But it is an open secret that very many of the men who went into the democratic primaries and who have since been posing as democrais, knifed Governor Atkinson; and it i equally true that many of those who did not do this were in their hearts anxious see the majority cut down to the smalles possible figure-were, indeed, in active sym pathy with Colonel Buck and were giving

him all the aid in their power.

A study of the election returns will show where this was the case. The small majorities in Fulton and Bibb were largely due to this; in Rome many of the gold "democrats" openly supported Mr. Wright; in Whitfield, Thomas, Ware, Lowndes and other counties that might be named, these or failed to vote at all.

So it is true that all the gold elements of the state—with the exceptions referred to-fought the democratic ticket, did all the harm possible; and this factor adds to the national character and national importance of the contest. They were badly beaten when they expected to have their wish for a small majority gratified; and they are probably the most deeply chagrined at de-

mocracy's victory.

The returns give premise of a majority of between 45,000 and 55,000 for the state ticket, with the exception of the governor. In this campaign the whole fire of the enemy has been concentrated on the head is not only a great party victory, but it is a distinct triumph for Governor Atkinson. It is natural that the head of the ticket should fall slightly behind the other can didates on it, for, as has been the case i this contest, he is the target fired at. Throughout the campaign every gun has been pointed at him. The floodgates of populist misrepresentation were opened on him: he was fought for the Duncan circular, of which he knew nothing; he was secretly fought because of appointments he had made, or failed to make; and republicans and gold men who hoped for s small majority scratched the governor's name when they voted the democratic

A victory for him and for the gallant chairman of the state committee, who has been the guiding hand in campaign work and who has himself been made the victim of the misrepresentation of the enemy work since early in July and no party ever had a more faithful chairman. He left las night for his home. He will spend the next two weeks in the mountain courts, return ing to give direction to the closing two weeks of the November contest. Mr. C. S. Northen, vice chairman, will be in charge during his absence. Chairman Clay deserves the hearty thanks of all democrat for his work, and he certainly has them. The table presented by The Constitution in this issue shows how the counties have gone on the head of the ticket. In most instances the official vote and official majorities are given; in some the correspon dent has neglected to send more than the official majority; in others-and they are marked with an asterisk (\*)-the semi official return as sent by The Constitution's correspondent is presented.

A comparative table showing the majori ties in 1894 is also given. It shows in what counties the gains and the losses this year over two year ago are. The comparison is

Late reports indicate a few changes in the list of members of the legislature. It is pos sible that Judge McCurry, democrat, has been beaten for the senate in the thirtyfirst district by Yancey Carter; and it is probable that Dr. Golden, populist, has been beaten by Mr. Craven in the thirty eighth. For a time it looked as if Mr. Phil McClesky had won in the thirty-ninth, but trict it is close between Hon. John McRa and Mr. Wootten, both democrats

# PRESS APPLAUDS THE CONSTITUTION

Messages of Gratulation from Georgia Newspapers on the No Trace is Left of the Great Signal Complete Report of Wednesday's Election.

WORDS OF CONGRATULATION FROM THE WIREGRASS COUNTRY. Albany, Ga., October 8, 1896,

To Clark Howell, Editor Constitution—As an everyday newspaper man who ought to know something about what was required to do it, I want to congratulate The Constitution on the remarkable feat which it performed this morning in publishing returns of Wednesday's election from every county in the state.

Only the initiated and experienced have any idea of what this successful performance of such a feat required, and The Constitution is the only newspaper in the south that would have dared undertake it. And while I am shaking hands with you over the wires, let me say that The Constitution has not only been the great tribune of the organized democracy of Georgia in the campaign which was fought to a finish on Wednesday, but that it has taken its place at the head of the column of the great masses of the common people of the south as they march hopefully to the struggle in November under the leadership of Bryan and on the declarations of principles enunciated by the democratic party

This year's campaign has been, and is yet, a trying one with newspapers, and men as well, and The Constitution has stood by the H. M. McINTOSH, Editor Albany Herald.

"THURSDAY'S CONSTITUTION IS A WONDERFUL ISSUE."

Americus, Ga., October 8, 1896. To Clark Howell, Editor Constitution-Accept my fraternal greet-

ings and the congratulations of thousands of friends of The Constitution in Americus, Sumter county and the third district. The Constitution's work in this campaign has been democratic to the core, and it has done more than any other agency to cement party differences and bring about glorious democratic victories.

Thursday's Constitution, with reports in detail from the 137 counties of Georgia-think, too, that this wonderful journalistic feat was all accomplished in less than twelve hours after the polls closed is a wonderful issue.

No section of this state appreciates more fully the great work of The Constitution to the democratic party than does southwest Georgia, where your splendid metropolitan daily circulates by the tens of thousands. Accept my personal congratulation.

MARIE LOUISE MYRICK. Editor Americus Times-Recorder.

DIFFERS IN POLITICS BUT PRAISES ENTERPRISE.

Thomasville, Ga., October 8, 1896. To Clark Howell, Editor Constitution-When it comes to covering the state on the day of an election The Atlanta Constitution easily takes the lead of any paper in the south. Its feat in publishing reports from every county in the state this morning is worthy of any great metropolitan journal.

The Constitution has a corps of able and well-drilled correspondents scattered throughout the state, and they appear to have completely covered the ground on the day of election. Labor and expense are not taken into account when a great work of this kind is to be accom-

"THE EQUAL OF THE BEST METROPOLITAN JOURNALS."

Augusta, Ga., October 8, 1806.

To Clark Howell, Editor Constitution-We congratulate The Constitution upon the superb performance of yesterday. It covered the state effectually, and was enabled to serve its readers with a complete presentation of election news from every county in the State.

Without The Constitution's unsurpassed facilities and thorough organization such an exploit would have been impossible, and the fact that it has these, renders it the equal in all respects of the best metro-

Can Be Heard Far. but Is Merely To Keep Up Courage.

HOW THE REPUBLICANS FEEL Grosvenor Is Trying To Keep Then in Courage.

HE MADE A BLUFF AND QUIT

Scheme That Was To Have Been Worked on the Australian Ballct-News of the Campaign

Chicago, October 8.-(Special.)-About re publican headquarters there is to be found the most thoroughly stampeded set of politicians one can see on the face of the earth. General Grosvenor, of Ohio, is the only one who keeps up his courage. The general met me at the breakfast table yesterday morning and made the statement that he was so certain republicans would carry Iowa, he would be willing to bet \$1,000 to \$100. He did not say it in a tone which indicated that he desired to bet, but this afternoon the newspapers appeared with an article to the effect that the general had bluffed the democrats out.

Seeing this I called on General Grosvenor tonight and offered to take his bet over and over, just as many times as he could stand it.

"Oh, I didn't intend to bet on the result in Iowa," he said. "My idea was simply to express to you my confidence that we would carry Iowa. I am sorry any such statement was printed in the newspapers.' So it is with all republicans. They talk and print statements about betting, but very few of them will make any bet at all, though they trumpet about the fremendous odds they would give if they could get the bets. This trumpeting, however, is always done when no betting democrats are about.

The republicans have devised a scheme to make their money felt on election day. They have arranged to steal a large quanity of blank Australian ballots, mark them for McKinley, and place them in the hands of their purchased voters. The said voter is to take this ballot into the booth. When he is delivered one by the managers of the election booth, to be marked for his vote, he is simply to slip it into his pocket and vote the one given him marked for Mc-Kinley. When he returns the blank ballot to Hanna's hired men, he is to be paid his

As it happens to be a penitentiary offens for any one to have a blank Australian ballot in his possession outside of the booth, the democrats will have men on hand to detect, as far as possible, those who attempt to violate this law, and will perhaps have the satisfaction of sending me of Mr. Mark Hanna's able hirelings to the penitentiaries of the middle western states. There are a few Illinois republicans now serving terms at Joliet for such of fenses in the election held two years ago.

The republicans are resorting to all sorts of desperate schemes. They issue bulletins from their press bureau to the newspapers, Their latest is one to the effect that the democrats have abandoned all hope of electing Bryan and will devote the rest of the campaign to the election of legislators favorable to silver that the silver sentiment may prevail in the United States

When this bulletin was shown to Senator Jones tonight, he said: "That is another one of the republican lies. They have abandoned all hope of electing McKinley on the straight issues of the campaign, practices now to injure the democrats.

"I have no doubt in the world," continued Senator Jones, "that Bryan will be elected. The people are overwhelmingly for him, and I pelieve he will receive the largest majority of any president elected in this country within twenty years."

Congressman Bailey, of Texas, was here yesterday. He has been speaking in Kentucky and is now making a tour of Indiana. "Kentucky," said Mr. Bailey, "is as sure ly democratic as Texas. Many more republicans will vote for Bryan than there are democrats who will wote for either 'Mc-Kinley or Palmer and Buckner, You can put Kentucky down as absolutely safe."

Colonel Frank H. Husford, who is secretary of the state democratic committee and a prominent newspaper man of Michigan, says that Michigan is certain to go democratic by not less than 25,000 majority. He is so confident of this that he has offered to wager even money for any ordinary amount that he is right. The betting men around the republican committee say that they don't want any of it. They can find better things on states that have more decided leanings toward the repub

Johnny Schriver, of The New York Mail and Express, is out here "doing up" the democrats in true Mail and Express style. Johnny is one of the best known of Washington correspondents, but he is rarely ever known to be right politically. About republican headquarters Mr. Schriver has been listening to the boys who are boasting to keep up their courage, until he has become a good thing for the boys on the democratic side, and the chances are that after the election Johnny will have to overdraw his salary to the extent of a few thousand dollars. He is one of these enthusiasts, who, when he makes a statement in a moment of enthusiasm, will not be backed down when somebody offers to bet him. Colonel Hosford got him excited today and secured several bets out of him. One of these bets was that he (Schriver) could name twelve states more certain for McKinley than any twelve Hosford could name for Bryan. Schriver named Kentucky, Marylnd and Louisiana in his twelve, while Hosford only named some certain southers and western states and Schriver was bantered into making his bet on a ratio of

He again named seventeen states, in cluding Kentucky, Maryland, Michigan, Illinois and Iowa and Minnesota, and be three to two that McKinley would carry

There are not many enthusiasts like Schriver out here, but there are enough for some shrewd fellow who likes to bet to pick up \$4,000 or \$5,000 on wagers that are almost certain to win.

Chairman Campau, of the democratic campaign committee, returned this morning from Michigan, where he spent yesterday in completing Candidate William Jennings Bryan's itinerary through that

## THEY ARE WHISTLING SENATOR JONES SENDS HIS CONGRATULATIONS STIR OF THE MOMENT

Felicitates the People of Georgia Upon Their Grand Rally to Democracy at Wednesday's Polls.

Chicago, His., October 8 .- To The Atlanta Constitution: I congratulate the people of Georgia on yesterday's splendid democratic victory in the re-election of Governor Atkinson by a'majority almost doubling that of two years ago. It shows that the democracy of Georgia rose to the full measure of its duty and appreciated the significance of a greatly increased majority. Arkansas, Tennessee, Alabama, Florida and Georgia is our answer to Maine and Vermont. J. K. JONES.

Chairman National Democratic Executive Committee.

days in Michigan, makes a wonderful tour and in that time appears in half the counties and in every congressional district. He speaks at Duluth next Monday night, and then, with his party, boards a private car engaged by Chairman Campau, pro-ceeding to the Michigan-Wisconsin boundary line, where he opens his campaign in the Peninsula State by a speech at the great mining town of Ironwood. All of next Tuesday he passes in going down the Gogebic and Marquette iron ranges, speaking at Bessemer, Escanaba, Negaunee, Ishing at Bessemer, Escanaba, Negaunee, Ish-peming and Marquette—all big mining cities— and making many stops at other import-ant towns on the route. He then proceeds by night train to the Straits of Mackinaw, crossing them on the morning of Wednerday, October 14th. He proceeds then down the G. R. & I railroad, speaking at Petoskey, Cadillac, Reed City, and Big City to Grand Rapids, the second city of the state, where he makes a long evening

Starting out from Grand Rapids the following morning he circulates through the lower peninsula speaking at Holland, Ben-ton Harbor, Niles, Kalamazoo, Battle Creek and Jackson, and closing with a meeting in the evening at the state

capital, Lansing.
This day trip is through one of the most fertile and densely populated portions of the state, and there are many short stops at small cities.

The last day of his trip is given up to southeastern Michigan. The candidate speaks at Owesso, Flint, Saginaw, Bay City and Port Huron, closing with two big meetings at Detroit, the metropolis of the state, in the evening. He also makes on this day about ten station stops. From Michigan Candidate Bryan pro-

ceeds to Ohio and speaks at Dayton on Saturday, October 17th.

There are more than 200 Bryan meetings in Chicago every night. The audiences at these meetings range from 500 to 7,000, yet ne line appears concerning them in the McKinley press. These papers are con tinually making assertions that the democratic campaign managers have abandon Bryan; that Bryan is sick; that there is dissension in the democratic and populis tic ranks; that the democratic manager are without funds: that they have million and millions of money wrested from the mine-owners; that the silver boom is on the wane; that the labor you is for Mc-Kinley; that McKinley will carry Illinois and other central western states by incredible majorities. These stories only a part of the plan of the McKinley managers to delude the public outside of Chicago. With one or two exceptions there is not a solitary morning newspaper in which is entitled to any credence on political affairs. As a matter organized labor is overwhelmingly for Bry an; business men, with the exception of the large merchants and bankers, are for Bryan; 30,000 republican voters in are for Bryan; 30,000 populists in Chicago are for Bryan, and four-fifths of the rail-road men of Chicago are for Bryan. The republican managers may make these met march in McKinley parades they may make them wear McKinley buttons; they may make them join McKinley clubs; they prevent them from attending free silfrom voting.

Hon. Emil Hoechster, of Chicago, who has been addressing German voters throughout Illinois during the past two weeks, says that the German voters of this rning to Bryan by thousan He asserts that Bryan will come up Cook county with more than 30,000 majority.

The McKinley managers are buying everything that is purchasable. Every purchasable trade paper is being utilized by Mark Hanna and made to sing the praise of McKinley and the gold standard. The latest acquisition to Mr. Hanna's brood of McKinley shriekers is The Amercian Com mercial Traveler, published in this city by C. A. Barcher, pretending to be the orcan of the American Travelers' Associa tion. The columns of The Traveler have been sold to the McKinley managers, and will appear next week as a republican campaign edition. This sale of the paper has so disgusted Mr. Charles A. Edwards, the editor, that he has resigned his position. He declares that he will not be made a part of the sale, no matter if he starves. Mr. Edwards was sent to Chicago some time ago by President John A. Lee, of the American Commercial Travelers' Association, to act as editor of the paper in ques-tion. Several days ago Mr. Barcher, the proprietor, requested Mr. Edwards to go to Hanna headquarters and see how much he could get to come out in support of McKinley. Mr. Edwards, who is a strong silver man, although a lifelong republican, positively refused to have anything to do with such a disreputable business, and promptly sent in his resignation as editor. Mr. Barcher then made the appeal himself and will bring the paper out next week for Mr. Edwards, in speaking of the matter

today, said: claim made by the McKinley mana gers that the traveling men are for McKin ley is a lie out of the whole cloth. In St. Louis, for instance, where 3,000 traveling men have their homes and headquarters, there are 1,800 of them enrolled in Bryan commercial travelers' clubs. It is safe to say that one-half of the remainder are for Bryan. In Chicago there are about 6,000 traveling men, and I know of my own personal knowledge that not more than 500 of these are enrolled in the McKinley com mercial travelers' association. It is also true that a great number of the traveling men are compelled to stifle their con-victions or be discharged by the house for whom they are working. I am per-sonally confident that of the 6,000 traveling men traveling out of Chicago at least 4,000 are for Bryan. I am going back to St. Louis where I came from, and you will hear from traveling men conversity. hear from traveling men concerning the disreputable action taken by the proprietor of The American Commercial Traveler."

All Great Britain is agreed upon one point—that there should be some sort of a great celebration of the sixtieth anniversary of Victoria's reign.

It was first proposed to hold a celebration as soon as her reign developed greater length than any other British sovereign. She has just passed that point, but in accordance with her expressed wish any celebration was postponed until next summer, when comes the sixtleth anniversary of her

#### ROSEBERY HAS LITTLE TO SAY. When Asked About His Resignation

London, October 8 .- The Daily Mail will tomorrow publish an interview with Lord Rosebery at Dalmeny Park, his seat in Edinburgh. The writer says the ex-premier fenced every question, turning to irrelevant topics. His only noteworthy remark was in response to an allusion to his sudden action in resigning the leadership of the liberal party. He said:

"It was not sudden. The situation has been untenable for some time, and I determined upon this course when Mr. Gladstone assumed his present attitude in certain matters."

The religion is a variety of Mohammedanism, and the political divisions are governed by the sons of the shah. The lucky men who marry the daughters of the shah become chief men in the kingdom. Of the revenue collected one-fourth goes to the support of the shah and his family, another fourth to the priests and the rest to the government officers and soldiers.

The people live chiefly by agriculture, and also cultivate silk worms, mine turquoise and fish for pearls. They make about \$1,000,000\$ worth of rugs and carpets every year, doing all the work by hand. A wealthy Englishman has control of the industry. There is no public debt, and the taxes are levied by taking what is wanted from wealthy merchants. For this reason rich men avoid all display of wealth. When a servant is hired he brings with him his whole family, and if he is over twelve he has at least one wife and two or three children. He has a right to charge his master 10 per cent on all purchases he makes for the household, and sometimes extracts as much from the dealer, thus accumulating enough to pay his taxes. Being poor does not excuse a man from paying these government demands. If he has no money or property he is tortured, on the theory that he has money somewhere and must be made to produce it.

The marriage relation and the laws governing it are a little strange. Polygamy is not universal, but there is no law against it. The law prescribes that a man may have four first-class wives. He marries these wives for all time. They are usually of the same social rank as himself, In addition to these first-class wives, he can have as many second-class wives as he wants, and it makes no difference what rank they come from. The second-class wives is married for a certain length

self. In addition to these first-class wives, he can have as many second-class wives as he wants, and it makes no difference what rank they come from. The second-class wife is married for a certain length of time, set out in the contract, and is usually paid at marriage. A man may marry a woman for a minute or a day or a week or 100 years. The custom is, however, to marry her for ninety years. In addition to all the first and second-class wives, a man can have all the concubines he chooses. It is no discredit to a woman to be a second-class wife. If a man has got his quota of first-class wives and happens to want a woman of distinction, her parents being willing, it is all right for her to go into his household as a second-class wife. If a child is born after the term of the marriage expires, the woman being a short-term wife, the father takes it and maintains it. The divorce laws are liberal—for the men. A man can divorce any of his wives at will. The law requires that he shall announce it publicly to her and there shall be witnesses. A written divorce is not good, and is not received even as evidence.

Resebery's Retirement from the Leadership Calls Out Comment.

HIS RECORD IS COMMENDED Says the Ragtag and Bobtail Barked at His Heels.

GLADSTONE MAY HANDLE THE REINS AGAI

It Is Asserted That Sir William Harcourt Will Not Be Allowed to Aspire to Succession.

London. October 8.-In the political clubs t was not expected that Lord Rosebery would resign the leadership of his party at present, despite the agitation agains him. The advanced liberals desire a more progressive and aggressive policy, though a large section of the party approve Lord Rosebery's coolness in a time of feverish

Many of the liberal members of the house of commons wired to the officers of the liberal party in Westminster today askng for information in regard to Lord Rosebery's withdrawal and received the reply that the ex-premier's letter of resignation was wholly unexpected, not even Mr. Ellis, the liberal whip, to whom his letter of resignation was addressed, having had a hint that it was impending.

The resignation of Lord Rosebery is the sole topic of discussion in the reform and national liberal clubs, where it is assumed that Sir William Harcourt will succeed to the party leadership, though many of the rank and file say that that will not solve the situation.

These persons predict that within a few years the progressive opinion of the country will compel the present liberal leaders to go with their hats in their hands to Mr Chamberlain and accept his leadership upon his own terms.

London, October 8 .- The Daily News, commenting on the earl of Roseberry's withdrawal from the leadership of the liberal party, says:

"Lord Rosebery has allowed himself to be maneuvered out of the leadership Before he can be asked to resume the position, he must be accorded a vote of confidence by his colleagues and his party. The step taken by his lordship is a very grave and lamentable one. It is Mr. Gladstone's return to the field that has been the immediate and perhaps the inevitable cause. Mr. Gladstone's enunciated policy in favor of Great Britain's single-handed action in the east regardless of consequence conflicts with the principles to which Lor Rosebery has adhered. In the political crisis Mr. Gladstone certainly has not got the whole nation nor the noble party

hind him in that policy."

The News argues that, although Mr. Gladstone explained that he spoke public citizen, he cannot divest himself the glamor of his old position and the matchless authority which he exercised in the party, and that, therefore, when he intervened in practical politics, in a sense out of harmony with the declarations of out of harmony with the deciarations of the recognized leader of the party, he obviously made the latter's position very difficult. The News article concludes by saying that apart from the consideration of his age and health, the fit and proper course is for Mr. Gladstone to return to the leadership of the party. If he is ready for this, assuredly everybody will acquiesce, otherwise Lord Roseberry holds the field and must be re-elected. His lordship has altogether exaggerated and misconceiv

The Daily Chronicle, which has always opposed Lord Rosebery's leadership, tends that the general tone of the liberal policy as regards the east is not reported by Lord Rosebery.

The Chronicle pays a high tribute to his honesty, and states that it recognizes his high qualities, etc., but accepts the decision. The Chronicle acds that the immediate duty of the liberals and radicals is clear. Sir William Harcourt should succeed Lord Reschery by unquestioned and unquestionable right of service. The article concludes with an expression of joy at the prospect and strength and coheren opens for the first time since Mr. Glad-stone's retirement. The conservative press contend that Lord Rosebery's resignation of vision in the ranks of the party.

Friends Surprised at His Strange Actions and Words Take Him in Charge-News From Rome.

Rome, Ga., October 8 .- (Special.)-As the

result of the intense political excitement John Marion, one of the most prominent and highly respected farmers of Floyd county, is suffering from mental aberration at his home a few miles from the city. Yesterday a man named Daniel came to the city to vote and on going to the polls he was told that he could not vote in this precinct, but would have to go to Cave Spring, eighteen miles below here. Being a strong supporter of Seaborn Wright, he was determined not to lose his vote, so he set out to Cave Spring.

About two miles from the city he met John Mariou, and knowing him to be a strong Wright man he spoke to him about the election, when Marion answered him in very incoherent manner. He told Marion that he was on his way to Cave Spring. "Where is that?" asked Marion. "I never heard of the place before."

Daniel was much surprised at the anwer and replied that he was going there to vote for Seab Wright.

"Who is Seab Wright?" asked Marion in bewildered manner. "I never heard of him before." Daniel saw that there was something

wrong with his friend and began to ques tion him, when he found that Marion was just wandering aimlessly about the country and he persuaded him to go home and physician was called in and it was found hat Marion was unbalanced. Measures were immediately taken to quiet him and he was reported as improving this morning. Marion was for a long time one of the nost substantial democrats in Floyd coun ty, but two years ago he espoused the populist cause and was very active in the campaign for Felton against Maddox. When this campaign opened he went to work for Wright and had been one of the hardes workers in the field. When Wright and Graves snoke here Tuesday he was one of the most enthusiastic men in the audience. His friends believe that the constant strain on his mind was too much for him, although he is a man of more than ordinary intelligence and that the result has been the unbalancing of his mind, but the physicians hope that the trouble is only temporary and that with proper care

he will soon be restored to his right mind A Delicate Operation. Yesterday Drs. Henry Battey, Wynn and Harbin performed a delicate and dangerous operation upon Professor Robert J. Gwaltney, assistant superintendent of the Rome public schools. Professor Gwaltney has long been a sufferer from a tumor in the abdominal cavity and from calculous forma tion in the kidneys and the physician found that the only relief was in the use

of the knife. Professor Gwaltney insisted that the operation be performed and yesterday they undertook the task. The patient realized the danger, and bidding a cheerful goodby to his friends, he mounted the operating table and was put under the influence of ether. An opening twelve inches long was made in the abdomen and the tumor was removed. It was of growth and weighed fifteen pounds. The surgeons then removed the left kidney. stones of jagged shape that had caused the patient untold suffering.
The operation required two hours and

half to complete it and the patient wa very much exhausted when it was ended. He rested very well last night, but he ha not fully reacted during the day and his condition is such as to cause his friends the greatest anxiety.

### A Panther Chase.

Night before last a party of 'possum hunters went out toward Black's Bluff, and returning in the night the growls of a panther caused a panto among the members of the party. The crute seemed to be a chump of bushes on the rocky hillside and one of the young men fired his pistol in the direction of the noise which seemed to infuriate the creature still more.

Another member of the party then dis charged his gun in the same direction and the growls ceased. The hunters were pretty badly shaken up, as this is not the first time that a strange wild beast has fright-ened the residents of that portion of the community. Last night another party was organized with guns and pistols and dogs to hunt down the beast, but the search was to funt down the beart, but the search was unsuccessful. It is believed that a panther that has escaped from some menagerie has taken up its abode in the recesses of the wild region around Mount Alto and the hunters will be on the alert hereafter.

From The Philadelphia Press. Rev. Alberto C. Diaz, a Baptist clergy. man of Havana, spoke last evening to the congregation of the First Baptist church, ling a story of his own experience in Spanish prison and of his sentence to death by General Weyler. Dr. Diaz declared that his only offense was the preaching of civil and religious liberty, to his congregation, part of whom were sympathizers with the nsurgents. He was warned to cease promulgating such doctrines, but he persisted and was finally routed out of bed by a body of Spanish soldiers. His house was searched and he and his brother were imprisoned in Moro castle. For nearly two weeks leased because General Weyler feared complications with the United States. Dr. Dias

I recognized him as a member of my congregation, and he asked if he could do anything for me. I took pencil and paper from him and wrote a telegram to the president of the Southern Baptist Missionary Union telling him of my danger. The soldier succeeded in smugging the telegram through and the next day everything was changed. Instead of being shot we were allowed to converse, to receive friends, and to have everything but liberty.

I was afraid that the same danger might arise again and asked one of my members to send a telegram to Secretary of State Olney telling of my imprisonment and of the fact that I was an American citizen. Weyler refused to allow the telegram to be sent, but my faithful messenger succeeded in smuggling it on board a steamer and he was arrested just as the steamer pulled out.

"The man confessed to having sent the telegram and when Weyler heard of it he immediately telegraphed to Washington: 'Diaz released.' That same day I was released and with my family I was exiled and forced to leave on the next steamer."

#### HORSES NOT IN DEMAND.

The Bicycle Has Played Havoc with the Trade.

Imagine a herd of horses aggregating 125,000, for which no practical use can be found. Stockmen of the northwest are today considering what disposition can be made of this immense number of animals, made of this immense numb says The New York Herald.

This great herd roams the prairies of Mon-tana, North Dakota, Washington and northern Idaho. They are grazing upon grass that is required for the sustenance of cattle and sheep, and are practically worthless for any purpose. The cause of this serious condition is due to the bicycle and street car systems operated by electricity and by cable, the use of which within the last few years has so largely done away with the emploment of horses. In some of the districts named the horses are increasing so rapidly in numbers that they are actually crowding live stock, used for supplying the meat markets of the country off range where they find grass on which to subsist.

The men who own this vast number of orses, ranging as they do over such large expanse of territory, can devise no means of relief and they are practically helpless. Excellent horses, unbroken, can be bought for from \$5 to \$15 a head, but even at this low figure no buyers can be ound, while the horses, too valuable to h destroyed, and at the same time too ex-pensive to keep alive, continue to multiply. As a result of the liberal policy adopted by the Northern Pacific and other railroad

companies of the northwest, after measures were adopted by the government to circum-scribe and keep the Indians within certain bounds, the great ranges at one time occupied by elk, buffalo, deer and antelope were quickly taken up by capitalists who, having heard of the fame of this region as hunting grounds, established ranches there and be gan raising stock on a large scale. Hundreds of thousands of dollars were invested in cattle and large herds of stock bought in Texas, Arizona and other states and territo ries in the southwest and driven to the rich ranges in northern Idaho, North Dakota, Washington and Montana to fatten on the nutritious bunch grass which grows so lux-uriantly there. Immense fortunes were made in this way and cattle kings were numbered by the score. Many capitalists invested in sheep and raised wool, but the rapid increase in the herds and changes in the tariff laws so affected prices that it was found that the investment no longer

Among these stockmen were many who raised herds of horses, either separately or in conjunction with cattle. When the Northern Pacific railroad was completed much greater accessibility to the horse markets of the east was possible. So encouraging was the investment in horses that many owners increased their herds to as high as 10,000 or 12,000 head. Attention was given to raising

grades of horses and abandoning the half-breeds and broncho grades. Large draught norses, at one time, found ready sales in the eastern markets and in Europe. It was also thought that there would be an excellent market for horses in large cities where street car companies use these ani-mals for motive power. For a number of years there was much profit in raising stock for street car use, but when elec tricity and the cable system were adopted the profits in horse raising gradually di-minished until, instead of there being gains, there was constant loss.

Importations of fine breeding stock from Kentucky and the eastern states, as well as from England and Scotland, were made but it was found that the horse industry was on the decrease. Shipments to eastern and middle western states over one rail-road alone dropped from 10,000 head yearly to 2,000. To such an extent did the market depreciate that instead of making orse owners found that they stood a good chance of going into bankruptcy.

Then the bicycle came into general use and the horse raising industry received its final blow. Those who had been in the habit of using saddle horses found that a bicycle did not require to be "broken in," nor did it require feeding or stabling while in many ways the machine was ca pable of being applied to greater use than

This surplus of 125,000 horses consists no alone of bronchos or cattle horses, but in it may be found such stock as coach and Clydesdale horses, nearly all of which, however, are unbroken. Among them are the descendants of some very high-priced stallions. One rancher near Walla Walla. Wash., has 3,000 horses on his range, all of which are finely bred. These he is within which are finely bred. These he is willing to sell at \$10 per head, "big and little." as the saying is among cattle men, which means colts as well as the grown animal. He can find no purchaser for his stock.

The question which is now agitating these stockmen is: "What can be done to rid the ranges of this immense number of horses, in order that pasturage may be

tragedy occurred near Albertville last Wednesday evening resulting in the killing of one man and another being fatally

The trouble arose between two Daniels boys and an old man named Slaton, and was caused by a dispute over the ownership of a pig, all parties claiming it as their property.

The Daniels boys attacked Slaton and the latter defended himself with a longbladed pocketknife, cutting one of his assailants so severely that he will die. During the fight, and while Slaton was slashing his brother, the other boy fired at Slaton, killing him. The slayer has been arrested. All parties are well-to-do farmers.

#### HIT THE OFFICERS ON THE HEAD Desperate Man Uses His Shotgun

While Resisting Arrest. Raleigh, N. C., October 8 .- (Special.)-There was a lively battle in Cumberland county today. Deputy Sheriff J. K. Kinlaw and James Pate went to arrest J. D. Johnson, a desperate white man. They seized his shotgun, but he began a revolver fusilade. He hit both deputies in the head, Pate twice. He also shot two farm laborers who were called on to aid in capturing him. Both deputies are badly and perhaps seriously hurt, and are at Fayetteville. Johnson is in jail there, as the deputies pluckily captured him.

#### KILLED BY UNKNOWN NEGROES Farmer Murdered and Robbed While Camping Out.

Birmingham, Ala., October 8 .- (Special.)-Randolph Falls, a prominent farmer living below Toadvine, in the lower edge of the county, was killed last night by two unknown negroes while camping out in the woods on his return home from the city. Tuesday Falls came to Birmingham and sold a load of cotton. Yesterday he set out for home and took two negroes with him. About twenty-five miles below the city the three camped for the night. This morning Robert Vines, living at Toadvine, happened to pass the place and saw Falls lying or a pallet with his head crushed in. A bloody ax a little distance off told how the murder was committed. Falls was still breathing,

but he died a few minutes later. Sixty-six dollars was found in an inside pocket, but his pants pockets were turned inside out, and an empty pistol scabbard was left by the negroes. Sheriff O'Brien sent dogs to the scene with hopes of trailing the negroes.

#### CHARGES AGAINST BANK MEN. That They Received Deposits After

Bank Was in Receiver's Hands. Erie, Pa., October 8.-Information was made last evening by J. H. McLaughlin, a depositor in the defunct People's Saving Institution of the Northwest, charging the president, Alfred Short, and his cashier, Fred O. Davis, and bookkeeper, Dewey, with grave offenses. Short is charged with fraudulently taking and appropriating to his own use from the bank \$12,000, and the cashier and assistant, together with Short, are defendants under a second charge of embezzling about \$2,500, as deposits received the day or shortly before the bank went into the hands of a receiver, January 22d last. Bail in the amount of \$6,000 was given, and a hearing will be given the defendants next week.

Gloucester, Mass., October 8.-The people of this city and residents of Cape Ann generally were thrown into a state of great excitement when it was learned that George J. Marsh, treasurer of the Cape Ann Savings bank, had shot himself fatally in the head at his summer residence in Annisquam. Shortly before 11 o'clock his forenoon the curtains in the bank were down, the door locked and a notice posted upon it bearing the following: Bank closed balance of the day."

This caused comment and soon the bank officers gathered and went into session. At 3 p. m. the fact of the suicide was

in Cuba.

Havana, October 8.—General Mario reports that the troops under his command have captured rebel camps at Calabasa and Caridad, near Holguin, and have occupied the towns of Capote and Rojas. The rebels carried away with them their dead and wounded. Two of the spanish soldiers were killed and nine wounded. Spanish troops from Matanzas have raided and destroyed the insurgent hospital at Las Cocos. The place was defended by fifty rebels, who were dispersed after a sharp fight in which three rebels and one Spaniard were killed. A quantity of medicines and a number of surgical instruments were secured by the troops. The steamer Triton has brought to Havana 240 Spanish soldiers from Pinar del Rio province, who were incapacitated by illness.

Three prisoners of war were shot today, one at Artemist and two at Matanzas for the crime of rebellion. Seven prisoners were placed on trial by courtmartial in Havana on a similar charge.

## ROLLING MILL BOILER LETS GO. Man and Baby Killed-Thirteen Men

Injured by Explosion.

Danville, Pa., October 8.—A boiler exploded this evening in the big rolling mill here owned by the Philadelphia and Reading Railroad Company and operated by the Reading Iron Company. One man and a baby were killed and thirteen men hurt, six of them seriously. The furnace was not in use, and bricklayers were repairing it. The boiler was lifted by the force of the explosion from its bed through the mil wall, and flying across the street, crashed through the front walls of a Hungarian boarding house, killing the baby. The cause of the explosion is unknown. The damage to the mill will reach \$5,000. Injured by Explosion.

"Again he said: 'So, Mr. Speaker, this bill is just to the silver producers of the United States, for it does what the present United States, for it does what the plant is a demonstrated by every administration for ten years, has not done. It takes every dollar of silver buillion that is purchased in the United States and places it at the McKinley of 1896: 'It is not more money we want. What we want is to put all the money we have already at work. In 1890, when he advocated more money, we already added \$24,000,000 to the circulation each year. This year we have no such law and Bland act. Mr. McKinley said in 1891 that Mr. Cleveland had been discriminating against silver; had been trying degrade it; had been trying to contract the currency, and that by lessening the currency he made money dearer by making it scarcer, and making money the master and all things else the servants. ATLANTA, GA., October 9, 1896.

The Plutocrats' Panic.

We rise to make a modest and humble inquiry. What is the matter with the big panic that the plutocrats and Wall street potentates had in pickle for us poor free coinage "popocrats," as they We observe that they are still call-

ing on its ghost to come out of the nasty deep-making much of the fact that Mr. Moreton Frewen has said that he thought Bryan's election might result in a panic in the stock market. But Mr. Frewen explains his statement by intimating that half a dozen men in Wall street can start a panic any day they choose, with or without reason, and he relies on there being enough fools in to turn them loose in New York.

As a matter of fact, however, there can be no panic that will hurt any substantial interest in this country. If the English holders of American securities are fools enough to sacrifice them in New York, who makes money by the transaction? The panic of 1893 was due to a panic in property values and prices. The panic that is now promised us as the result of the success of Bryan will be confined to the fools' flurry in London, and to the fall in the value of giltedged bonds. But what American in-

terest will be hurt? Not one. But the inquiry with which we started out is pertinent. Where is the panic the money potentates had in pickle for us? Notice has already been served on those behind the scenes that Bryan is to be our next president. The goldsidized editors continue to misrepresent, but all the big bugs who have been engaged in manipulating matters know that the gold standard is doomed so far as this country is concerned. Nobody knows it better than the Hanna crowd. They know that the voters of the middle west are deserting McKinley in droves, and that he has no hope of carrying even his own state. They know by the time Bryan gets through his campaigning Michigan, Minnesota, Iowa, Indiana and Illinois will be beyond the reach of the corrupting influences of the Rothschild campaign fund.

What, then, is the matter with the panic? Why is it that the crowd which promised to produce it are still keeping it tied out in the back yard? Well, one reason is that they do not desire to add to the force and effect of the landslide by which the Hanna gang will be overwhelmed next month, and that is a pretty good reason; for, behind it, there still flutters the last desperate hope that buying and bulldozing may be as effective this year at is has been in other years.

But these processes have failed thus far, and the critical period of the campaign is past and the honest republican voters of the middle west, of the whole country, are flocking to the American standard carried aloft by Bryan. They are glad to be called "popocrats," as we are, for they know when that name is applied to them that they have become a part of the great movement in favor of American prosperity and American financial freedom. They do not object to being called "socialists" and "anarchists" because they know that those epithets identify them with Thomas Jefferson and Andrew Jackson, the great men who were patriotic enough to stand of his maladministration. for the rights, liberties and prosperity

of the common people. We repeat, the men who are managing the gold standard campaign and directing the employment of the vast corruption fund at their disposal have already to that reform of reforms, the restora-

ed. What they will do after the votes have been counted remains to be seen They will not be as bold as they have been. They will likely draw out the gold they have been depositing in the reasury, and Cleveland may be forced by them to issue another \$100,000,000. They will be able to demand a premium on gold until they find, under the new administration, that the treasury has no further need for gold for any purpose whatsoever, and then-crash!-down will come the gold premium, and out will come such hoards of the yellow metal as its owners may desire to exchange for money that is available in everyday business!

The panic which they are promising will affect only the London fools who are ready to sacrifice American securities, but we think these fools will be fewer in number than anybody now sus-

Senator Hoar on Bimetallism. If Senator George F. Hoar, of Massachusetts, should decide to enter the campaign at this late day and make a number of speeches on the line of his recent interview in The New York Journal, he would no doubt play havoc with the gold sentiment in New England.

That the able senator will not figure to any very great extent, however, in the campaign which is now pending, may be reckoned as a foregone conclusion. Although in former years the senator has been regarded as one of the straightest of his sect, it now turns out that he is altogether too dangerous to be trusted by the Mark Hanna syndi-

Only a few days ago Senator Hoar returned to this country from England. To his credit it may be said that while abroad he fell in with some of the leading statesmen of Great Britain, and instead of bringing back with him the sordid taint of the money power, he has returned with a message of good cheer to the friends of bimetallism.

In the recent interview, to which reference has already been made, the venerable senator from Massachusetts ob-

opinion in England, which is eager for the restoration of silver to its place by the side of gold as a standard of value, a legal tender and a ser-vant of national and international trade and commerce as currency. I suppose, indeed, I think I know that this is the opinion of a majority of the present cabinet.

But there is in England considerable difficulty in the matter. Leaders of the opposition, Sir William Vernon-Harcourt especially, and Mr. Glad-stone, who, although out of office, is still a great political force, take the brutal view that so long as other countries owe England an indebtedness, estimated by some persons as high as \$10,000,000,000, that everything that increases the volume of the coin in which the debt is to be paid is a clear gain to her. The administration is timid, and although a majority of the administration are bimetallists, they would encounter some oppos among themselves, and they do encounter the banking and investing classes in the city of London

such eloquent testimony from the lips of one who only a short while ago was an ardent champion of the single gold standard is, indeed, a most valuable contribution to the logic of the campaign. Slowly, but with the irresistible tread of time itself, the conviction is overtak. ing the American people that the single gold standard is synonymous with greed and corruption, while the policy of bi metallism, upheld by the wisest and grandest statesmen of the world, is the standard alike both of prosperity and patriotism.

A Unique Idea.

To settle the vexed question involved in the present campaign The Chicago Record, with its customary enterprise, has resolved upon a plan which can hardly fail to throw some light on the situation, although it may not exactly anticipate the result of the election.

Proceeding upon the idea that the real battle ground of the campaign is restricted to the states of Illinois, Indiana, Michigan, Wisconsin, Minnesota, North Dakota, South Dakota, Nebraska, Kansas, Iowa, Kentucky and Missouri, The Record's plan is to send out postal ballots addressed to 10 per cent of the voters in each of these states, asking them to return the same at once with their choice indicated. In 1892 the twelve states mentioned cast 4.581,570 votes, or nore than one-third of the entire vote of the country. It will thus be seen that the postal system contemplates a response from at least 458.157 voters, representing every profession and employ ment. To this number it is also pro posed to add the registry of Chicago voters, less 10 per cent included in the state's apportionment, making a grand total of some 750,000 ballots. That such a method of foreshadowing the result of next month's election is not without its decided merits must be recognized by every one. The conception is both unique and original, and is altogether a new departure in journalism. It involves the outlay of quite a large sum of money, but is strictly in keeping with the wide awake, progressive policy of The Record under the brilliant management of Mr. Victor F. Lawson. In the line of newspaper enterprise Mr. Lawson has no superior. The result of the test ballot will be awaited by the country with amazement which the brilliant progress eager interest.

The Trusts and Combines The Springfield Republican says that Mr. McKinley could strengthen his position by coming out against the trusts. But how? By a simple declaration against them. Why, no person on earth ever wrote more formidable platitudes against the trusts and combines than Cleveland, and yet when the time came for him to put his platitudes in practice. he nominated as attorney general the most notorious attorney of the trusts that could be found in the country. He placed that portfolio in the hands of Olney, of Massachusetts, and the result is that the anti-trust law has remained a dead letter during the whole four years

What the people want is not a declaration against the trusts by McKinley, but the election of a man like Bryan who is not only pledged to carry out the anti-trust law, but who is pledged received notice that Bryan is to be elect- tion of silver, which will be a deadlier many as twenty-four states of the union.

blow at trusts and m nti-trust law can strike

McKihley might get on the housetops and cry out against the trusts until his face is purple and his eyes bloodshot, and no sensible man would believe that he is sincere; for he has, in the most deliberate way, given in his adhesion to the gold standard, under the operations of which the trusts and monor been bred and nurtured. Maintain the gold standard and the trusts will flourish even though the statute book be crammed with anti-trusts laws. In the body politic as well as in the physical body the only way to cure a malignant disease is to eradicate the cause that

The malign influences of the trusts himself has become a live chunk of and monopolies might be somewhat mitigated by applying the law to them, but this relief would be but temporary. Scotched in one direction, the trusts would break out rankly and dangerously in other directions. In fine, the monopoly of money which is possible under our present financial system is more powerful than the law. Cleveland expressed this idea when he informed Governor Oates, of Alabama, that the big banks had the treasury by the leg. The trouble in this case was not the treasury. The Benedicts and that crowd had Cleveland by the leg, and, as they had him then, so they have him now. With the gold standard abolished in

favor of bimetallism we should have no dangerous trusts and monopilies and no anti-trust law would be necessary. The money supply could not be cornered, for it would be large enough to enable competitors everywhere to stand out against the combines that sought to absorb them.

Those who are heartily opposed to rusts cannot afford to support McKiney, for he is the chosen candidate of these combines. He not only favors the gold standard under which they have been brought to life, but he is in favor of the high protection which has added to their profits.

Hanna and the Working Men.

The Hanna campaign in those secions where the workingmen hold the balance of power is the most remarkable that has ever been carried on in this country. In the west and north the laboring men are treated with far less consideration than the negroes were in slavery times. The men who employ them think and act as if they had mortgage on the politics of every man o whom they pay wages.

It is no wonder that J. R. Sovereign, reneral master workman of the Knights of Labor, finds it necessary, in asking working people to keep him informed as to the coercive methods of the gold power, to inform that their positions will not be endangered, for he will not make their names public.

Such a system of bulldozing has never before been seen, much less attempted, in this republic. Forty years ago it would have resulted in the total destruction of the party in whose behalf it was inaugurated. Twenty years ago it would have resulted in riot and blood

But it is & fact that the gold standard has so pinched the workingman as to make him the slave of his employer. We are of the opinion that the laboring men understand this, and that is the reason they are submitting quietly to the coercive methods that they are now the victims of. They are submitting because it is a matter of meat and bread, but it is in their power to assert their manhood at the ballot box.

It is the gold standard that has reduced them to the condition of European pauper labor, and that has made them slaves. It is the gold standard that has made Hannaism possible. The workingmen can maintain their manhood and free themselves from slavery by voting for Bryan and the free coinage of silver.

Here is what General Master Workman Sovereign says about the methods of Hanna and the gold power, and we commend it to every man who earns or hopes to earn wages and still retain the spirit of manhood:

If the character of a single gold standard is to be judged by its influence in this campaign, it must be conceded that its only mission on earth is to make threats against industry, intimithe working people, and for America the same laws and condi tions on which rest the monarchies of the old world. A monetary system that is too cowardly to stand before the world on its own merits, but steals into the homes of the poor and demands the votes of the working people on threats of discharge, the monetary threats of discharge, the monetary system that compels working people to lie to hold their jobs and forces them to wear McKinley buttons whether they want to or not, and requires them to go on excursions to Canton, O., against their will, is in conflict with the spirit of republican govern-ment and too contemptible to command support of a patriotic, liberty-lov-

What do the workingmen of the country propose to do about it?

A Remarkable Campaign Such a campaign as the one which Mr

Bryan is now conducting is without a parallel in American politics. Even the most rabid organs of the money power have been wholly unable to conceal the growing wonder and

of the democratic nominee has inspired. Brilliant, however, is scarcely the word to use. So marvelous has been the witchery of his language and so profound the statesmanship which his speeches during the campaign have displayed, that divine inspiration is the only theory on which his success can be explained. Be this as it may, how ever, no one who has followed him in his matchless career of eloquence can possibly doubt either his sincerity or his genius. Great orators have charmed the ear of the country before today, but none of them have kindled such enthusiasm as that which has everywhere greeted the appearance of the democratic nominee. No leader has ever taken upon himself such a mighty task as Mr. Bryan has assumed in the present campaign, and the wisdom of the Chicago convention in chosing him as the standard bearer of the party has been fully approved. Up to the present time Mr. Bryan has made no less than two hundred and twenty-five speeches in as

and yet his physical strength has not abated in the least, while his mind is as

rigorous and unimpaired as it was in the beginning of the campaign. To have spoken so frequently and ye to have made no serious his enemies could possibly use to his disadvantage is in itself a most remark able achievement, and one which stampe the nominee as a man of pre-emine ability. In a still greater measure of genius, however, Mr. Bryan has succeeded in arousing the people of this Fer de fat, fine vote in Dixle! country as they have never been aroused in any former political campaign. Such indeed, has been the effect of his eloquent pleas for democracy that consternation has already taken possesion of the money power while Mark Hanns

indigo. Mr. Bryan will devote the remainder of the campaign to the states of Indina, Illinois, Ohio, Michigan, Iowa and Wisconsin. The same enthusiasm which has greeted him thus far along his tour will continue to sway the multitudes that gather to hear him speak in the doubtful states. In spite of republican coodle it begins to look as if victory is going to smile upon the people in this campaign and that triumph will yet be written on the old banner of democracy

Captain Kolb's Letter.

Captain Reuben F. Kolb, of Alabama whose patriotic course in espousing the democratic ticket in this campaign is lready familiar to the public, has reently published a letter in The Birningham Weekly Tribune urging the Alabama populists to vote the straight democratic ticket in the coming national election.

In addition to the signature of Captain Kolb this ringing letter also bears the names of the following leaders of the populist party: Messrs. R. H. Seymour, . ,G. Bowman, A. P. Evans, John J. Dunlap, N. H. Johnston, G. A. Robertson, A. B. Braswell, R. T. Ewing, John C. Hale, E. P. George, W. B. Alexander, A. J. Toles, J. E. Vanderble, Edward Leslie, J. B. Hansell, C. H. Burgess, M. A. Espy, W. C. Stiff, R. D. Sturdivant, A., J. Suther, M. C. Vanderble, James M. Hobson and J. W. Du-

In concert with these leaders Captain Kolb gives as a reason for urging the Alabama populists to support the democratic ticket that every vote cast for the populist ticket is a vote lost to Mr. Bryan, while every vote cast for the democratic ticket is a vote gained. It is further argued that since the great aim of the populist organization is to secure the adoption of free coinage it is matter of very great importance that every vote cast for that principle should be made available in the election. With out reflecting upon Mr. Watson, or even going so far as to indorse Mr. Sewall, the letter urges every populist in the state to support the regular democratic ticket as the only effectual means of promoting the cause of bimetallism.

That hundreds of populists in Alanama will be constrained by the patriotic tone of this letter to vote the straight ticket is evident from the fact that numbers of populists in this state, as shown by the recent returns, have come back into the democratic fold. Under the banner of free coinage both parties should unite in this campaign; and forgetting the unpleasant divisions of the past, march shoulder to shoulder against the com-

Canada's Forest Wealth.

From The Northeastern Lumberman.
The forests of Canada have supplied nore or less the wants of Europe turies. From the earliest days of its occupa-tion by the French the forest wealth of the country washed by the St. Lawrence gaged the attention of the government of France, who saw therein vast resources available for their naval yards. They drew from these forests large numbers of masts and spars and issued stringent regulations for the preservation of the standing oak. When the country was first ceded to Great Britain but little attention was paid at first to its vast timber supply, owing to the fact that almost the whole of the Baltic trade was carried on in British bottoms, and that the timber of northern Europe providthat the timeer of northern Europe provid-ed an unfailing and convenient return freight for the shipping thus engaged. When, however, the troubles of the Napo-leonic era commenced, and especially when the continental blockade was enforced, the timber supplies of the Baltic becoming uncertain and insufficient, attention was di-rected to the North American colonies, with 2,600 tons in the years 1800 to 125,300 tons in 1810 and to 308,000 tons in 1820. In 1895 the amount exported to the United Kingdom showed a total of 1,310,635 tons.

THE PASSING THRONG.

Congressman Livingston was figuring on Congressman Livingston was industry the national election yesterday and his Bryan column amounted to 206, McKinley's 169 and he had 72 in the doubtful column. Ohio, Illinois and Indiana, with a total of 62 votes, were placed in the doubtful side along with two of the small northwestern states. He believes that Illinois is dead sure a Bryan state and Michigan, too, which he had placed in the McKinley column.

"Bryan's election is as certain as any before the votes are counted," congressman. "Mr. Bryan is election is before the votes are counted," said the congressmen. "Mr. Bryan is making votes every day. He has the republicans frightened. They will soon be on the run. They have been over-confident and I regret that they have awakened to a realization of their danger. Bryan is stampeding the people of the middle states. My advices from Ohio are that the republicans are uneasy about McKinley's own state. As for Indiana and Illinois the remubilicans are in a state of panic. When epublicans are in a state of panic. republicans are in a state of panic. When Bynum went over to New York the other day and confessed that his own state was doubtful he gave the whole McKinley bluff away. He does not care anything about Palmer, and sees that the decoy ticket is not going to cut any figure.

"Take Indiana four years ago and you will find that Cleveland got about 7,000 more votes there than Harrison did and

that is Harrison's own state, too. The populist vote in Indiana then was 30,000 and now nearer 50,000. The populist will add their solid vote to the quarter of a million Bryan democrats and, sir, Bryan is liable to beat McKinley 50,000 votes in liable to beat McKinley 80,000 votes in Indiana. Bryan did a smooth thing yesterday in quoting from General Harrison's speeches of 1890 and showing from them that the then president was in favor of silver. Bryan is doing that with lots of the gold men of today who were for silver a few years ago. That kills anything they are say now. General Harrison can talk can say now. General Harrison can talk gold standard all day long, but he can't get away from his declarations in favor of silver six years ago. Indiana has a very of silver six years ago. Indiana has a very large floating vote. If the republicans try to buy all of it they will go broke and then they will not be sure of getting the vote they pay for. Illinois is more sure to go democratic than Indiana is. The demogo democratic than indiana is. The deno crats are better organized in Illinois than in any other state this year. Nothing but money can defeat Bryan in Illinois and Indiana, and I don't believe Hanna can raise enough to carry those two states for

"I am very much gratified at the result "I am very much gratified at the result in my district," said Congressman Carter Tate, of the ninth. "A populist majority of 200 has been changed into a democratic majority of 1,500 to 2,000." Colonel Tate's prospects are bright for a handsome majority. He had a big major-ity two years ago and he counts on a larger one part month.

Ex-Solicitor General Lewis Thomas, of the city court, is pushing his canvass for the position of solictor of the superior court of Fulton county. He has strong ments from the members of the state su preme court and the members of the At-lanta bar. The indorsements from the city bar are over 228 signatures of attorneys and speak for themselves. They compliment Mr. Thomas in the highest terms on his character, his able and efficient record as solicitor of the city court and

These testimonials also show the good feeling which the bar of Atlanta have for a fine solicitor general, and that his election would give entire satisfaction to the bar and people. Mr. Thomas has conducted a quiet candidacy. One of his supporters says: "It, perhaps, can be said of him that he is not a politician, but he will make a strong race for solicitor general. His record is clean and nothing con be said against him. The evidence from the bar shows him to be highly qualified as a pros-ecuting officer, and his election would meet with entire satisfaction from the bar and

THE DEMOCRATIC TRIUMPH.

An Honorable Victory. From The Augusta Chronicle.

If anybody had any doubt of the triumph of democracy in Georgia that doubt has vanished in the face of the magnificent ma jority the party has rolled up in this election. The populists put up the best figh tion. The populists put up the best fight they knew how and there were local cirumstances in the campaign w to decrease the majority of democracy somewhat from the larger figure it would have otherwise reached. As it is, it is a glorious victory that will infuse greater ope in the hearts of the masses all over the country. Probably to no southern state has the nation looked with such deep interest in all this campaign as to Georgia The election yesterday is more indicative of the result in November than that of any state that has yet acted. Governor Atkinson's administration has received the hearty indorsement that he deserves. He has made a governor of whom the state

From The Macon Telegraph. The populist party is in a state of deca-fence. Assisted in this campaign by the active help of the prohibition leaders it was unquestionably able to show more than its real strength; yet, with this as-sistance it falls far behind the showing made in the election of 1894. Democrats have every reason to be satisfied with the result. Under peculiarly discouraging circumstances, they have won a victory greater that that won two years ago, when their enemy had hardly gained the status of a national party.

A Signal Victory.

From The Americus Times-Recorder Democracy, pure and undefiled, has scored another signal victory. Yesterday's election passed off very quietly. There was no friction among the several parties that contended for supremacy in old Sumter, not a disturbance or even a quarrel occurring at the polls. Everything was hon-estly and fairly conducted, and neither side can charge fraud or corruption in any manner whatever. The result is just what the democrats predicted and the enemy admitted even weeks ago. The tide is set ting democraticward, and it cannot be stayed. Upon this swell of democratic fervor and patriotism Mr. Bryan will be carried to the white house.

Congressman Bynum, of Indiana, who a cently resigned the chairmanship of the national gold democratic committee, is disposed to take a somewhat somber view of the political outlook. So far as Indian and Illinois are concerned he sees but little hope for the single gold standard and is correspondingly depressed. ## AFTERGLOW

Fulton Receives Congratulations Upon the Result of Yesterday.

TOTALS ARE CONSOLIDATED

Figures Published in Yesterday's Constitution Correct in Every Detail.

STORY OF THE DAY AFTER THE BATTLE Many Bets Were Paid Yesterday by Those Who Staked Their Money

on a Small Majority.

The clean sweep of democracy has left an aftermath that brought much comment

and pleasant surprise. Yesterday was a lively day at democratic headquarters and many congratulatory telegrams and letters were received from all portions of the state, and today's mail will bring similar messages of good cheer.

Old Fulton, the metropolitan county of the state, was watched with much interest, and her prompt response to the call of democracy increased the good feeling that was prevalent in every county in Georgia vesterday.

The returns from Fulton county, as published in yesterday's Constitution, were correct and upon the consolidation of the vote yesterday at noon in the ordinary's office the figures, totals and majorities were substantiated and found to be accurate in every ward and country precinct. In fact, the managers were enabled to check the consolidated returns by The Constitution's

"The figures were exceedingly accurate," said Ordinary Calhoun, "and the table was well arranged as published. The election passed without any confusion and the tally sheets show that all instructions were care-rully noted and obeyed by the managers." The consolidated returns will be filed with the secretary of state and will be placed on record in the state archives. The manager met in the office of Ordinary Calhoun yes-terday at noon and at 3 o'clock the returns had been consolidated and the result as an nounced in The Constitution was made a matter of public record and was given the signatures of the managers, whose duty it was to see that the returns were properly

How the Returns Were Received. The returns were received in The Consti-tution office Wednesday night the moment the count had been made in the various

wards and precincts.

As soon as the count of any one candidate was completed by the managers a messenger caught the figures and telephon-ed the count in to The Constitution. One feature of the election was the speed

with which the count was executed, with the probable exception of the third ward, where the count was delayed several hours after all wards had announced their totals. Saving this delay, all the totals and most of the details were known before mid-

night.
The consolidation of the ticket does no change the result in the least. Ward by ward and precinct by precinct the figures were checked and rechecked, anl when the end had been reached all errors had been corrected and every mistake had been elim-inated before the figures were given into

the hands of the printer.

Sheriff Nelms received the congratulations of his friends yesterday upon the vote given against the Branan bill. He was an active worker against the change of jail management and wore a pleasant smile yes

To no one did the result bring greater surprise than to the man who had placed his money on an adverse result. The populists and their friends who had wagered their dollars for a Wright majority received many unwelcome visitors yes-terday who called for the payment of bets

made on the eve of batt "I voted for Atkinson yesterday," said a gentleman, "but I bet on a twenty thousand majority. Well, I have just paid my bet—rather have lost the money than to have seen a smaller majority. I'm satisfied and I know the other following. and I know the other fellow is, for he's got

my money."

The 40,000 majority was the talk of the day and was taken as a pointer that shows the shadow of the triumph of next month's

OPENING OF THEIR CAMPAIGN

Bolters Held a Secret Meeting Yesterday and Will Get To Work in Earnest Saturday.

Now for the Bryan and Sewall, McKinley and Hobart, Palmer and Buckner and Watson campaign. The fight is on and the opening guns have already been fired. With the passing of the state election excitement the national campaign comes to the front and the hosts of battle are gathering. Yesterday witnessed the opening of the gold standard party's campaign. With great noise and pyrotechnical display a huge ban-ner bearing the likenesses of Palmer and Buckner, the bolting democratic candidates for president and vice president, was strung across Alabama street at Broad street.

WILL OPEN A SCHOOL.

Y. M. C. A. TO SOON HAVE A FINE BUSINESS COLLEGE.

Classes Will Be Conducted by the Best Talent of the City and a Full Attendance Is Expected.

The business department of the Young Men's Christian Association, which is one of the most important features of the whole institution, will soon be in active operation. Secretary Matthews is determined to make this a special feature of the work, and to further this end he has the work, and to further this end he has engaged some of the best talent in the city to conduct the classes. The school will be known as the Business College of the Young Men's Christian Association.

Professor J. M. Keyser, of Sullivan & Crichton's college, will give lessons in bookkeeping, penmanship, arithmetic, spelling and commercial correspondence. Professor E. M. Washington, of the Southern Shorthand and Rusiness college. Southern Shorthand and Business college, will conduct the classes in shorthand. The college opens on the 19th of this month and already many have signified their intention of joining.

President Comer Is Anxious To Pay It as His Share.

LOUISVILLE AND NASHVILLE'S PLAY

Evidently Is Working To Control an Outlet From Atlanta Toward the Coast Seaboard Gossip.

The Central of Georgia and the Louisville and Nashville are having trouble of their own these autumn days. President Milton Smith has President Hugh M. Coner in a corner over the Georgia railroad lease. Under the old arrangement, the Louis-

ville and Nashville and the Central had a joint interest in the lease of the Georgia, having subleased the company from Colo nel William Wadley, formerly president of the Central. The sublessees agreed to pay a rental of \$600,000 a year to the Georgia railroad's stockholders. For years the joint lessees went along and paid the rental all right, each putting up half when there was a deficit in the Georgia's earnings, Four years ago, when the Central went into a receivership through the instrumentality of Mrs. Rowena Clark, it berrowed once or twice large sims of money with which to make up its part of the delicit. Then, in the course of time, the Central was sold out and among its assets was a half interest in the lease of the Georgia. This was bought in by Messrs. Samuel Thomas and Thomas Ryan for the new company. But now the Louisville and Nashville declines to accept the new Central as a joint partner in the lease and is caring for the rental all by itself. It is said that Messrs. Lawton & Cunningham, the Central's attorneys, went up from Savannah to Augusta last week to pay \$100,-000, the amount of half the deficit on the lease, but the Georgia's representative declined to accept the amount, saying that

Louisville and Nashville prefers to retain sole control of the Georgia, even though it has to make good the whole deficit. The significance of this is that the Louisville and Nashville intends to have its own independent outlet to the Atlantic coast through pendent outlet to the Atlantic coast that Atlantia. At Augusta Mr. Smith has the Savannah river and the South Carolina and Georgia railroad for connections. The South Carolina and Georgia runs to Charleston. This means much right now when the Seaboard Air-Line, which is the Leviewille and Nashville's friendly connections. Louisville and Nashville's friendly connec-tion at Atlanta, has been bought by Mr. Thomas Ryan, one of the principal owners of the Central. Under its new managethe Seaboard will be more friendly to the Southern and the Central at At-lanta than it will be to the Louisville and Nashville. But with sole control of the Georgia, Mr. Milton Smith will be inde-pendent of the other roads centering here and will be in a position to give Atlanta an independent outlet to the coast. It is assumed that the Seaboard will be put back in the Southern States Freight Association at an early date, but the Georgia drew out about the last of August. The Louisville and Nashville and the Nashville Chattanooga and St. Louis are all out of the association. The Western and Atlan-tic is the only link in the chain which is a mber, and Major Thomas, the head of member, and Major Thomas, the nead of that property, while president of the freight association, is not strong in his attachment for it.

From all of this it is inferred that the

it had already been paid.

Manager T. K. Scott, of the Georgia, thinks that he will be able to make the property earn its rental this year. It has been the talk in railway circles for a long time that the New York interests was too high a rental to pay in these days of low interest, and it was reported some months ago that they had a plan on to scale down the rental. At present there is a prospect of a litigation between the two great systems over the Central's right in the lease, for the Central does not even seem to be disposed to surrender its interest in the control without a protest and an effort to hold on.

CATCHING UP.

Other Papers Are Coming on With the News of the Sale. The news of the sale of the Seaboard to

Mr. Thomas F. Ryan and associates was generally published yesterday morning throughout the south, 24 hours after The Constitution announced it. A careful examination of all the southern papers shows that The Constitution scooped the whole journalistic outfit on this important trans-action, which means the obliteration from the railroad map of the greatest rate slasher east of the Mississippi, and that is saying a great deal. All the other papers appear to have over-

looked the significance of the harmony which pravailed at the annual meeting of the Seaboard and Roanoke's stockholders, at Portsmouth on Tuesday. But that very flarmony was pregnent with suspicion, and it turned out that the pool of Seaboard stock had been sold to Mr. Ryan, and that accounted for the tranquillity which per-

vaded the meeting.

There are some who suspect that General John Gill was really assisting Presient Hoaman in making the deal, though and his management.

No significance is attached to the denials members of the pool that they ld out their holdings. It was no: intended that the sale of the control could be made public for some time to come, as it was feared that the public would not be placated easily. It was feared that cities like Atlanta might feel that they were being bottled up and make trouble along lines already set by Vice President St. John. And it may be that the fears were well founded, as there was a rumor yester-day that some legal or legislative action would be undertaken. Something may develop on this line within a few days.

The Seaboard's management has worked up general sympathy for its cause, and this is figured out to be one of the reasons for the haste in completing the deal. The rate cutting, the letters and the sympathy racket, all were factors, moving Mr. Ryan to secure control of the Seaboard at any

While Vice President St. John has had the criticism for demoralizing the railroad situation in the south as it had never been demoralized before, he is now cred-ited with forcing the deal. President Hoftman said in one of h's numerous letters that the opposition steamer line on the Chesapeake bay meant death to the Seaboard if it was not removed, and added that the Seaboard might just as well die a hasty death as a lingering one, but he remarked incidentally that others would be made sick unto death before the fight was over. Inasmuch as President Hoff-man's brother-in-law was one of the men who made the deal for the stock with Mr. Ryan and Mr. Gill, it is not to be supposed that the president held his stock out and

There is nothing new so far as to what will be done with the present organization of the Scaboard. The men have demonstrated that they are hustlers and loyal to their company, so it may be that Mr. Ryan will retain the most of them. As for Vice President St. John, one of his friends says that he has had overtures from one of the largest systems in the country and he can step into another job any minute he desires.

TALK THE SEABOARD DEAL. BALTIMOREANS TRYING TO GET FACTS OF THE TRANSACTIONS.

But Gill Is Giving Out but Little Information Except as to the Price Paid.

Baltimore, Md., October 8 .- The absorp ion by the New York syndicate, headed by Thomas F. Ryan, of the Seaboard and Roanoke railway and the Baltimore Steam Packet Company, continues to be the one topic of discussion among financiers of this city. The same secrecy that characterized the early stages of the negotiations is still observed, and it is hard to obtain anything like a clear idea of the transaction. It is known that General John Gill, president of the Mercantile Trust and Deposit Company, had, up to the time of his leaving Portsmouth to attend the stockholders' meeting, on Tuesday, secured 2,700 shares of the Seaboard and Roanoke stock, while President R. Curzon Hoffman carried with him, including his own holdings, 4,000 shares. General Gill had guaranteed \$100 per share to the owners of the block which he represented. It was stated today by one in a position to know that Mr. Hoffman declined the offer of the New Yorkers to purchase the 4,000 shares which he held at that price, and finally closed the deal with them at

The syndicate insisted on having turne over to them the controlling interest in the packet company, without which the Seaboard would be bottled up at Norfolk A block of the stock is owned by the Seaboard and Roanoke, but it lacked consid erable of the coveted majority, and the representatives of the voting pool present at the conference guaranteed to sell th necessary shares, the par value of which is \$1,000. Fifteen hundred dollars a share is said to have been paid by the New Yorkers for the securities. General Gill was asked today by a reporter for the Southern Associated Press if he desired to make public a statement concerning the

transaction. He replied: "I have only one statement to make. desire the public to understand that the price I obtain for the stock of the Sea-board and Roanoke Railroad Company, for which I have taken options and an still taking options at \$100 per share, is the price which will be paid to the holders of said stock, in accordance with the terms of said option. This includes my own stock, and that is the largest individual holding signed to that agreement."

Baltimore, October 3.-In addition to se curing a controlling interest in the stock of the Seaboard and Roanoke railroad, the New York syndicate, headed by Mr. Thomas F. Ryan and Colonel George B. Harvey, has also secured centrol of the Baltimore Steam Packet Company. This company, more familiarly known as the Bay Line, operates a line of steamers which forms the connecting link between Baltimore and Portsmouth with the Seaboard Air-Line system, of which the Seaboard and Roanoke is the parent company. The Steam Packet Company has \$400,000 in capital stock, divided into 400 shares of \$1,000

each. to this company has had a separate stock debt from that of the Seaboard an Roanoke and has been held as an individul corporation, although the management was up of the same interests which controlled the Seaboard and Roanoke. Usually the same board of directors controlled th

operations of the two companies. It is stated to be the intention of the purchasers as soon as they came into cor rol of the properties to combine the stock indebtedness of these companies and forn one corporation, having its northern terninus at Baltimore. The capital stock o the new corporation will depend on the earnings of the two companies.

Enlarging the System. The syndicate, it is said, will build up a system in the south composed of the Sea board Air-Line, Port Royal and Augusta and other lines in that section already controlled by Mr. Ryan and those asso

ciated with him. The syndicate, it is stated, now controls about 6,700 shares of the 11,000 shares of the Seaboard and Roanoke stock. This is made up of the 4,000 shares held in pool by Watts, of Portsmouth, Va.; Louis McLane of Baltimore, and Moncure Robinson, of Philadelphia, and of the options on about 2,700 shares obtained by the Mercantile

Trust Company, of this city. The primary cause of the purchase was to get rid of the policy of rate cutting inaugurated under the management of the two companies, and to restore harm among the southern lines in place of the present hostilities.

A Card From Mr. Hoffman. The following card is published here to

The following card is published here to-day:

"To the Stockholders of the Seaboard and Roanoke Railroad Company: I do not desire to enter into a newspaper discussion as to the right or wrong of the action of the financial agency of the Seaboard Air-Line, but Mr. Gill has asked me one direct question, which I will answer.

"I do not consider it to the interest of any stockholder to give an option on his stock, and particularly at \$100 a share, as I consider the Seaboard and Roanoke Kallroad Company's stock intrinsically worth more, because there is in the treasury of that company stocks and bonds to the par value of more than the capital stock. This is entirely outside of the holdings of fluat company, which control about 1,000 miles of road, or the property, terminals, roadbed, etc. I therefore say that the stock of the Seaboard and Roanoke railroad is intrinsically worth much more than par, and where a control is desired by any other line more than double par. Where is there another case in which 1,000 miles of railroad is controlled by a company with a capital stock of \$1,383,400? And is this stock not worth over \$100 per share?

NEWMAN'S OPINION FILED.

He States the Position of the Court in a Railroad Suit.

Judge Newman yesterday filed in the United States court his opinion on the bill filed by E. E. Jones, receiver of the Chat-tanooga, Rome and Columbus railroad, against Fred D. Schlapback and Benjamin D. Harbin, asking Judge Newman to enjoin them from prosecuting a suit that is now pending in the city court of Floyd county. The suit was brought against Received Jones because the railroad had built a dam that has caused damage to the plaintiff's property. In support of Receiver Jones's motion to have the two men enjoined from suing him he argues that he was appoint ed receiver after the dam had been built and is not subject to suit on account of it. Judge Newman's opinion reviews the evidence in the bill and then sums up the sit-

uation as follows:

"If the suit was proceeding against Jones for his own acis, as receiver. I should be disposed to allow it to proceed to judgment: if the counsel for the plaintiffs in the city court are disposed to proceed against the receiver in that way, and only for his own acts. I will not grant the injunction against the further prosecution of the suit. I am quite clear that where a suit is proceeding in any other court against a receiver of the circuit court, for acts other than his own, as receiver, the suit should be enjoined. Unless it is made to appear here, therefore, that the suit in the city court will proceed only in the manner indicated, an injunction will issue as prayed for.

manner indicated, an injunction will issue as prayed for.

"In the event an injunction should issue, the plaintiffs in the city court, Schlapback and Harbin, by proper intervention in this receivership case, or, indeed, by proper pleadings in this separate case instituted by the receiver against them, can have their raiam investigated here and their rights ascertained and determined as effectively as in any other court of competent. ually as in any other court of competent jurisdiction. W. T. NEWMAN, "United States Judge."

Surveyors To Start Work.

A surveying party will start from Chattanooga next Tuesday to run a prelimi-nary line toward some point on the Ma-rietta and North Georgia road. This line is for the Tennessee, Georgia and Atlantic, which is proposed to be built from Augusta to Chattancoga. A meeting will be held in Athens tomorrow to organize the com-

Building a Short Line.

Major Burke, formerly receiver of the Chattanooga Southern, was in Atlanta this week. He is now interested in an extensive iron property near Jacksonville, Ala., and is building a short road to give the mines an outlet. When the road is completed, the mines will have connection with the East and West and with the Southern.

Columbus Southern Sticks.

Mr. Sam Parrott, receiver of the Columbus Southern, has notified Commissioner Richardson, of the Southern States Passenger Association, that his road will remain a member. Some time ago the Columbus Southern gave notice of its purpose to withdraw, but has since canceled the no-tice. The notice was first given simply for the reason that the road has very little competitive passenger traffic.

Two Train Loads of Hay.

The Southern brought into Atlanta or Tuesday two special hay trains, decorated with banners, announcing that they were shipped by the A. T. Lowry Grain Company, of Missouri. There were forty-six They came south over the Missouri. Kansas and Texas to Memphis, the Memphis and Birmingham to Birmingham and the Southern from that point to Atlanta. Some of the cars were for Atlanta and others for Macon, Colum ous. Savannah. Brunswick and Jackson The hay was all sold before it left ouri and was not sent here on consignment. Daylight runs were given to the trains, and even with this they made fast time. The shipment is said to be the largest ever made of hay into the south.

W. A. Moody Elected.

Birmingham, Ala., October 8.-(Special.) W. A. Moody was today elected manager of the Alabama Car Service Association, to take the place of Major W. H. McClin-tock, who died last week. Mr. Moody is purchasing agent for the Howard Harrison Iron Company, at Bessemer, but formerly was soliciting freight agent for the Richmond and Danville at this point. He will also be commissioner of the Souther will also be commissioner of the Southern iron committee. In the race for the office were Messrs, L. K. Plosser, chief clerk in the office under Major McClintock; J. H. Garner, freight agent of the Southern at Atlanta, and L. E. Lumms, of Louisville, with the Louisville and Nashville. Mr. Moody was a compromise, Almost all roads operating in Alabama are members of the association.

WAS THIS MURDER?

Mysterious Killing Six Miles from Atlanta Wednesday Night.

ONE NEGRO SHOOTS ANOTHER And Witnesses Claim It Was an Accident.

BOTH MEN LOVED THE SAME WOMAN

County Officers Are Investigating and Arrests May Follow-The Coroner's Inquest.

A killing which borders close on to both murder and an accident occurred on the Mason and Turner's Ferry road, six miles from Atlanta, Wednesday night. It was reported to the police yesterday morning. As a result Pritchard Maxwell, a negro forty-one years of age, lies cold in death with a bullet in his heart, fired from a pistol in the hands of Jim Hutchinson, also

colored, and a cousin of the dead man. The affair was very mysterious. While the house was full of people at the time of the shooting, and all say it was an accident, yet the officers nod their heads significantly and state the affair will bear an investigation.

Maxwell and Hutchinson were neighbors and lived on the Joe Warren place. Up to Wednesday they had always apparently been good friends. At 7 o'clock that night while some of Maxwell's family were in bed and others were sitting around the fireside the two men became engaged in a scuffle and two shots were fired from Hutchinson's pistol. One missed; the other took effect in Maxwell's left side just above the heart. He died in about half an

At least half a dozen witnesses state the two men were playing. County Officer Shepherd was notified of the killing yesterday morning and immediately began an investigation. He regards the case with uspicion and it is probable that an arrest will be made in the near future.

Woman in the Case. The point which makes the shooting look uspicious is that there is a colored woman in the case who has played a very suspicious part in the lives of both men for ome time. She lives in the same neighporhood and it has been noticed that both Maxwell and Hutchinson have been deeply in love with her. Both were accustomed to visit the girl, but it is not known positively hat there was bad feeling between them

on this account. The officers are rather inclined to be lieve that Maxwell was shot by a jealous hand, and that it is a case of murder. This fact, however, will be hard to substantiate, they say, for all witnesses in that neighborhood declare it was accidental as far as they know. Officer Shepherd does not deem the evi-

dence sufficiently strong now to make any arrests, but he is still working on the case and Hutchinsen may recline behind ail bars yet, suspected of a horrible crime. Hutchinson, however, is apparently very much grieved over the alleged accident. He declares he and Maxwell were on the best of terms and that the killing was

The Coroner's Inquest. Coroner Paden was notified yesterday morning, and he drove to the scene of the shooting in the afternoon and held an in-quest. The evidence introduced consisted mainly of witnesses related to Hutchinson, and the proof was strong that it was an accident. The jury brought in a verdict to

that effect. It may be possible that the story of the Hutchinson people is correct, and that the shooting was accidental. The authorities, though, regard the circumstances with suspicion, and state that the fact that two shots were fired renders sufficient grounds for an investigation.

FELL THROUGH A TRESTLE.

Macon Postal Clerk Badly Injured by a Fall.

Madon, Ga., October 8.—(Special.)—To-night A. R. Miner, a postal clerk on the Georgia railroad, slipped through a trestle near the river bridge and fell eighteen feet to the ground, sustaining ser ous injuries. It is thought he is badly hurt internally. His hips are thought to be broken. He was carried to the city hospital.

ELBERTON'S WOUNDED RECOVER

Wall Has Been Released, as He Was Not in the Row. Elberton, Ga., October 8.—(Special.)—The shooting afffray on Wednesday has passed off without further trouble. The parties shot are doing well and will recove witnesses say Mr. Tom Wall had nothing to do with the shooting of Mr. Swift, as reported in today's Constitution. He has been released from custody.

FOR DEFENSE OF CHARLESTON. Government Force Begins Work on

Sullivan's Island. Columbia, S. C., October 8.-(Special.)-Under the recent act of congress and following out the recommendations of Gen-eral Miles, the defense of Charleston has begun. A force of government engineers s supervising the construction of founda-tions for the fortifications on Sullivan's island, a couple of miles further toward the sea than Fort Sumter and opposite the bar. Perhaps the first piece of heavy ordnance ever shipped to Charleston by rail by the United States government is now resting on three big flat cars in this city, en route from Providence, R. I., to Charles-ton. This is the first of sixteen mortars which are to be planted at the entrance of the harbor. They are to be all twelve-inch, while of the ten big guns six will be twelve-inch and four ten-inch. The mortar proper weighs 32,150 pounds.

Charleston is receiving the first attention from the war department, as she has been the most neglected since the war.

LOIE FULLER AND ELIASON.

They Will Both Be Seen Tonight at the Grand.

A great combination to draw to—El'ason, the magician, and La Loie Fuller, the
famous danscuse. This is the great bill
that the management of the Grand offers
tonight to its patrons.

Either of these attractions would be an
evening's entertainment, but now that
they will appear in conjunction, the Grand
should be packed to standing room tonight.

"The Academy of Music held a large audience last evening to witness the wonderful performance of Eliason, the Mormon wizard. The magician is new in this city, this being his initial visit here, and judging from the applause he has surely made a hit. Mme. Sains Gene, a conception of Elason's, was a truly wonderful illuston and mystified those present. Mile. Edmunda is made to disappear in sight of the audience when a portion of her figure is in full view. There is the report of a pistol, the small curtain is whisked aside and the cage, which hangs some feet from the flow. Is found to be empty. The ride of the lady bicyclist is also very clever, and the Beggar Student' illusion attracted, considerable attention. The other tricks performed are all new and are truly wonderful. The young magician has laid aside the old tricks, such as bursting the eggs in the silk hat, smashing jewelry, etc., and substituted for them the newest and latest tricks."

The almost superhuskill of the Hindoo magicians has been cause of great controversy among traveling cause of great controversy among traveling Europeans and Bancroft's performance of the most celebrated feats of these magleians, whose methods he closely studied, has made a vertraole sensation and has caused his performances to be largely attended by the scientific and the studious who have always been desirous of witnessing a good reproduction of the Hindoo miracles.

ing a good reproduction of the Hindoo miracles.

In addition to a scene depicting these mysteries Bancroit exhibits a number of other sensationshy unique reatures included in different acts entitled "The palace of the magician of fable," "the abode of the juggler of Japan," "the spirit of the storm" and "the room of magic." The magician carries a large production of spectacular scenic effects and not a yard of the scenery of the theater will be used. It is said on good authority that his production cost \$100,000. His company numbers twenty-two people and includes Satsuma, royal juggler by appointment to his majesty the mikado of Japan. Another one of Bancroit's assistants is the famous Boomsky, who for eight years acted as the well-known assistant of Herrmann.

Bancroft is personally managed by Mr. Edward L. Bloom, who until this season was manager for Herrmann and Mr. Bloom's name in connection with the performance should be a guarantee of its high class value.

Louis James Coming.

Percy Sage, the agent of the well-known actor, Mr. Louis James, arrived in the city this morning in the interest of his star, who will play at the Lyceum next Wednesday, October 14th. A special mat-inee of "Romeo and Juliet" is announced, and in the evening Mr. James will present his magnificent scenic production of "Spartacus."

A pretty well defined rumor gained cur-A pretty well defined rumor gained currency that a big hump of McKinley money had been received in this city, sent by Mark Hanna for the purpose of buying up every possible floating vote in Georgia for the republican nominee for president.

There was no means of substantiating the rumor and only circumstances can be relied upon to ascertain whether or not the report is true.

relied upon to ascertain the report is true.

Of one thing there is no doubt, and that is that the republican party managers have enough money to run their eampaign in this state on an extensive scale. There is no doubt that the money for this purpose came from Mark Hanna's big campaign fund. Certainly the sources from which a fund could be raised in this state are very limited.

Mr. Hanna, it is said, has estimated that Mr. Hanna, it is said, has estimated that the voters of Georgia can be bought for a certain sum. As a straight business proposition it is said that he has appropriated that sum for purchase of the Empire State. In the light of developments and the returns of the recent election it is hard to see on what Mr. Hanna bases his hopes

Republican headquarters presented a busy scene yesterday. The hill after the storm, which was apparent at democratic and populist headquarters, was not in sight at the republican camp in the Grant building. The McKinleyites who have charge of the prowectionist's campaign in Georgia did not stop on election day long enough to take a look around them to see what the outcome would be. They kept up the same lick they have been striking since the headquarters were opened, sending out McKinley literature and gold circulars and

Huntsville, Ala., October 8.—Incorpora-tion papers have been filed in the office of the probate judge of this county, organ-izing the Huntsville and Monte Sano Improvement Company, with a capital stock of \$100,000. The members of the new incorporation were bondholders of the North Alabama Improvement Company, now defunct, and they have purchased the property of said company, which was sold under a decree of he chancery court last July. The property consists of the Hunis-ville hotel, Hotel Monte Sano, Huntsville's opera house, Monte Sano, turnpike, and im-proved property in and adjacent to Hunts-ville. The object of the corporation is to operate by lease or otherwise the above mentioned property and to buy and sell improved and unimproved and state and mentioned property and to buy and sell improved and unimproved real estate and erect improvements thereon. The principal place of business and location of the corporation will be in this city. The members of the company are Milton Humer, W. P. Newman, James R. Boyd, Samuel R. Cuises, I. Well and H. Weil, all of them business men of the highest standing. Boyd, Cuise and H. Weil have been created commissioners to sell shares and open books for subscription to capital stock. Officers and directors will be elected at an early date.

THE ANIMAL AT ONCE HEADED FOR HOME

Irate Owner Comes Out and Gives the Young Man Over to the Police Officers.

"Horse sense" played a unique role in an musing drama in Atlanta Wednesday, in which a drunker man, a horse, a negro and an irate old gentleman played the eading parts. The play was a comedy, but bordered very

closely on a tragedy. As it was the man who had imbibed too much booze found simself in the station house and now congratulates himself that the state convict camp does not stare him gloomily in th Barrett A. Logan is a traveling man,

imbibed just enough to make him think he was having a good time, irrespective of a ruling sense of right and wrong.

At noon the jolly drummer walked up Whitehall street taking in the sights and narrowly escaped being taken in by several policemen. At the corner of Whitehall and Hunter streets he noticed a buggy standing unoccupied. The horse was not tied, and the owner was not in sight. Prompted by the joy of taking a free ride, Prompted by the joy of taking a free ride, he summoned a negro, and the two entered the buggy and drove away at a terrific

This conveyance belonged to Mr. W. A Pulver, the well-known capitalist. He had stepped into High's store for some purchases, and on coming out was astonished to find his buggy nowhere in sight. The old man immediately became furious and swore eternal vengeance on the man who had stolen it. He then notified the police and got on a car and went to his home in West End, thoroughly exasperated. In the meantime Logan and his dusky

protege were taking in the town in grand style. They drove around the center of the city for half an hour, and by this time both were so drunk they did not have sense enough to know where "they

came in. The animal showed remarkable training in that particular dilemma, and determined to take the reins himself. Prompted by an unusual tired feeling, and an empty stomach, he started with his in-sensible driver down Whitehall street and out into West End in a good trot. About 1 o'clock Mr. Pulver was sitting

on his front porch almost insane with rage. Suddenly aroused by a noise, he was astonished to see his horse and buggy standing in front of his gate, with the occupants makir idiotic huzzas. As Logan was trying to induce the horse

to proceed with the whip, the inturtated owner swo-ped down upon him like a thunderstorm and demanded an explanation. The negro, suspecting it would be better for his health to skip, jumped out of the buggy and has not been seen since. Logan looked up with a bewildered ex-pression and inquired if anything was mis-

DAMAGING TO JACK DUDLEY. Witnesses Swear He Fired on Brown-

ing After Ed Had Wounded Him. Selma, Ala., October 8 .- (Special.)-The case of the state against Jack Dudley is the all absorbing topic in Selma this week. The state finished examining its witnesses this morning and the day was taken up with the examination of witnesses for the defense. The state brought out the facts that while the three-cornered duel was in progress between Ed. Dudley, the defend-ant's nephew, Richard H. Browning, and W. H. Sneed, Browning's friend, and just at the juncture where Ed Dudley fell to the floor and Browning clung to the window frame for support, defendant rushed in, and placing his pistol within four inches of the back of Browning's head, fired three shots and that Browning fell to the floor dead. They further proved that all other wounds on the body, excepting those inflicted by defendant, would not

have produced death.

In the cross-examination the defens brought out the fact that when Browning was killed, although too badly wounded to stand, he was supporting himself by bracing against the wall and window and was emptying both of his pistols into the prostrate form of Ed Dudley; and, further, that Ed Dudley was making a last attempt to fire upon his adversary.

Mr. Thomas E. Watson's letter of acceptance is hanging fire. It was to appear on Wednesday, but it came not. Nor did It greet an expectant public yesterday, and it may be two or three more days before it is sprung.

Mr. Watson has drafted it in his mind and has even made some rough notes. He intended to devote a part of last Tuesday and Wednesday to it, but a severe attack of tonsilitis appeared in the nominee's throat and he had to suspend. A physician advised him to stop work for a few days, and told him that he ought not to attempt

Mr. Bryan had his tonsilitis when he delivered his speech of acceptance in New York last August. Now Mr. Watson has a sore throat when he is preparing his acceptance. Still this does not indicate that Bryan and Watson are to be elected together

Mr. Watson went down to his home at Thomson, Ga., on Tuesday night after the populist rally here, which he could not attend by reason of his sore throat. Per-haps today he will be able to do some work on the letter. Last week there was some doubt about his accepting the nomination. All that doubt has disappeared. The letter All that doubt has disappeared. The letter will not decline the nomination. On the contrary, Mr. Watson says, he would rather lay his neck on a block than retire in favor of a bloated bondholder. He says that principle is not all there is in this campaign—not by a great deal. The populist party must be maintained, and the only way to hold it together, says Mr. Watson, is for the contraction of the contraction of the contraction of the contraction. Watson, is for its nominees to refuse to fuse. He fears that there is such a thing as fusing a party out of existence. The paper will probably be written at rhomson, and when it is completed it will thomson, and when it is completed it will be sent to the newspapers. Next week Mr. Watson expects to start west again. He has some engagements for Nebraska and may speak in other states, although the national committee of his party is reported as desiring him to stay away if he proposes to attack fusion where it has been accomplished.

HORNE'S WOUNDS PROVED FATAL Hogan Stabbed Him in the Side About

Two Months Ago.

Macon, Ga., October S.—(Special.)—This morning Mr. Bud Horne, a well-known citizen of Bibb county, died from the effects of a knife wound inflicted in his side about two months ago by Mr. James Hogan. Hogan was employed at the meat store of Mr. W. L. Henry. He sold Horne 80 cents' Mr. W. L. Henry. He sold thorne scens worth of sausage and Horne claimed the amount was only 70 cents. Horne became aggressive. The two men were soon engaged in a fight and Hogan cut Horne in the side. Hogan fled immediately and has never been apprehended. It is rumored he is in New York. Horne has gradually grown weaker since the cutting. Corone Hollis summoned a jury and held an inquest. Five witnesses were examined an the verdict was justifiable homicide.

ENGLAND'S BIGGEST PENSION. It Is Drawn by the Duke of Richmond

and Is \$95,000. From The New York Journal.
The biggest annual pension that is paid
in any part of the world is \$95,000. The
duke of Portland is the recipient, and he has never moved a finger or a leg to acquire this vast annuity, which is perpetual, passing from son to son, for no other reason than that the first duke of Portland had a pull with Charles II.

According to The Army and Navy Jou nal, in 1676 Charles II granted to the duke of Portland a pension of £19,000 a year, in perpetuity, in liue of a duty of one shilling a chaldron on all coals exported from the Tyne. Up to 1799 the family had rethe Tyne. Up to 1799 the family had received as proceeds of the duty upward of £2,000,000 sterling, and in July, 1799, the duty was commuted for an annual payment in perpetuity of £19,000 a year from the consolidated fund. As security for its payment consols to the value of £633,333 6s 9d were purchased. In the following year £485,434 4s 7d worth of these consols were sold, and the proceeds invested in land and during the present reign the remainder of the consols was sold and the proceeds

nilarly invested. Taking the annual payment on account of pensions at present time, Earl Nelson is in receipt of the highest, outside the royal annuities, vir. £5,000 per annum, payable in perpetuity to all and every one of the heirs male to whom the title of Earl Nelson shall descend. The duke of Wellington's annual pension

of £4,000 is for life, and Lord Rodney's pension of £2,000 is, like that of Earl Nelson, perpetual. The amount of royal annuities, excluding the queen's grant of £385,000, is £173,000, and, counting the pensions for na-val and military services, £27,700; political and civil, £13,086; judicial, £70,705, besides a large number of miscellaneous pensions, the total comes to £316,788 yearly. The largest pension on retiring from office is the £5,000 a year given to retiring lord chancellors.

The movement to prosecute Thomas A Clayton, city sexton, has been held up. It seems that the sensational report of the cemetery committee, adopted by the council last Monday afternoon, recommending that Clayton be held criminally accountable for his alleged misdoings will be

The aldermanic board has stepped into the middle of the fray and with one swoop the work of the cemetery committee of five months' has been laid on the table. At its meeting yesterday afternoon the board declined to concur in the action of the council, but, instead; voted to postpone the matter. It was stated by Mr. Howell, of the board, that Sexton Clayton had not been given a fair opportunity to be heard by the cemetery committee, and that he had been held up by the public in an unenviable light without having had a chance to explain the many charges against him.

The postponement was made on the statement of Mr. Arnold Broyles, attorney for Clayton, that his client would settle his indebtedness to the city inside of two weeks f given an opportunity to do so. Mr. Broyles and other said that Mr. Clayton stands ready to meet his obligations as shown by the report of the cemetery committee and that he will pay the al-

leged shortage of something over \$1,400. There was an interesting discussion the matter in the aldermanic board. Chairman Woodward, of the cemetery committee, argued that to postpone the matte would be in the face of the unanimous action of the council of Monday, when was decided to push the case against Clayton and prosecute him for the alleged irregularities in office, Mr. Woodward said that the city ought to hold its public officers strictly accountable for their conduct in office and that none who corrupt their office or misappropriate its funds should be allowed to escape. He said that the affairs of the sexton's office were found to be in a deplorable condition, and the alderman urged his associates to stand by the council and concur in the report of the committee, which carries with it the direction to the city attorney to take steps

to prosecute Clayton. Agreed To Let Him Settle. Alderman Dimmock raised an issue in the case which; it seems, will have an important bearing on the matter. He said that at the time the apparent shortage of

Sexton Clayton became known the ceme-tery committee was instructed to investi-gate the matter and ascertain the amount of the shortage. The sexton made no de-nial that he owed the city and he sent a communication to the council in which he agreed to settle his indebtedness. In consideration of that proposition the council adopted a resolution accepting the proposi-tion and agreeing to allow the sexton to settle with the city and then resign his

Alderman Dimmock made the point that it would be inconsistent for the city to repudiate that agreement and now prose-cute Clayton without allowing him an opportunity to settle with the city.

against him.
"Did you ever invite Mr. Clayton to ap pear before your committee, Mr. Wood-ward?" said Mr. Howell. "Is it fair to bring in a sensational report holding up Clayton's alleged irregularities without ever having heard from him in reply to the charges? Your committee was instructed to investigate this matter, but you come here with only one side of the case. I be-lieve that Mr. Clayton ought to be given a fair opportunity to explain and settle his indebtedness before further action is

taken on this mattar Mr. Woodward said that Attorney Broyles and Sexton Clayton had been notified that the investigation was in progress sometime ago, but that the sexton never appeared or offered to explain anything.

The motion to postpone the matter so that Sexton Clayton could arrange to make a settlement was adopted by a yea and nay vote, called for by Alderman Wood-ward. All of the aldermen voted to post-pose, except Mr. Woodward, those present being Adamson, Howell, Dimmock, Tolbert Colvin, Hirsch and Woodward.

The Sexton's Letter Recalled. On June 4th last Sexton Clayton sent the following letter to the council committee: following letter to the council committee:

"Atlanta, Ga., June 4, 1896.—To the Cemetery Committee of the General Council of Atlanta—Gentlemen: In compliance with the request of your chairman I herewith submit the following proposition of settlement: I will settle whatever indebtedness I may be owing to the city of Atlanta that is just and legal, and stand ready to tender my resignation when said settlement is made. In making this proposition I most emphatically deny that I had any intention to defraud the city out of one cent, and deny that I have done anything criminal. Respectfully submitted,

The City Agreed To Settle It. The following resolution was adopted by the council at the instance of Chairman Woodward, when the sexton's letter was

the racers made good time.
Only one accident occurred to mar the pleasure of the day, and this was not a serious one. Ben Boatenwriter and A. V. Gross both fell as they came in on the stretch in the quarter mile open. The fall was due to an accident that happened to one of the wheels and neither of the racers was hurt.

Bob Walthour was at the races and entered all the professional events. He broke the state record for a half mile paced by a tandem and made the distance in 1.04, which is only one second lower than the state record. The previous state record for a half mile paced was 1.05, made by John S. Johnson some years ago.

Though the professional mile race was run twice the professional men did not come within the limit either time. They

ran slow for some reason or other and Bob Walthour won easily every time. The imit placed on the mile professional race was 2:30 and they missed it by several sec onds each time.

Business Men of Athens. Athens, Ga., October S.—(Special.)—The Tennessee, Georgia and Atlantic Railroad Company will be formally organized in this city Saturday morning at 11 o'clock. Mr. Richards and the gentlemen interest ed with him in the promotion of this en-terprise will meet here then and perfect the organization of the road.

the organization of the road.

The lease of the Northwestern railroad will be accepted as a portion of the projected plans and after officers are elected, other plans for the building of the road will be perfected.

Mr. Richards, having dissolved the receivership of the Northeastern road by giving the required bond of \$15,000, is now ready to push the plans for the building of the new road. He says he is meeting with encouragement in all the towns along the proposed line of railway, and later on he will meet with the business men of Athens and see what they will be willing to do toward helping the road along.

'Varsity Football.

'Varsity Football. The football team of the University of Georgia is to receive two great additions this week. Fred Price, the great left tackle this week. Fred Price, the great left takes of last year's team, is to return to college, and Saussy, of Savannah, one of the best players in the state, is to enlist beneath the banners of the red and black. The first class game will be played on the campus tomorrow afternoon, and will be between the seniors and sophomores.

Mr. Swift's Wounds. Dr. I. H. Goss returned today from Elberton, Ga., where he went to give his attention to Mr. Isaac G. Swift, who was shot at the polls in that place yesterday. He says that while Mr. Swift's wounds are of a painful nature, they are not dangerous and that he will be able to be out again soon.

Newsy Notes.

Mr. R. C. Latimer is visiting relatives in Lexington, Ga.

Judge and Mrs. Reese, who spent this week with their daughter at Lucy Cobb, have returned home.

The great people to today, but das it was as it was not washington, D. C., where also has been visiting the family of Hon. W. H. Sims, first assistant secretary of the interior.

Superintendent G. G. Bond has returned from Dawson, Ga., where his infant son, is quite fil.

Paine-Murphy Co.'s Cotton Letter. Atlanta, Ga., October 8.—The reaction in the Liverpool market after a firmer opening there, together with selling for Liverpool account and heavy receipts at the ports and principal interior towns caused the decline today. There was a slight rally at one time in which the opening loss was recovered, but subsequently prices reacted again and declined, closing steady at a net decline of 11 to 15 points, with sales of 202,000 bales. Stop orders were caught on the way down, accelerating the decline and estimates for New Orleans and Houston for tomorrow together with easier spot markets, contributed to depress prices. Liverpool declined 1-32d on the spot with sales of 12,000 bales. Futures there opened at a partial advance of 1 point, but reacted and declined 1 to 2 there opened at a partial advance of 1 point, but reacted and declined 1 to 2 points. In Manchester yarns were quiet and unchanged: in cloths buyers and sellers were apart. The Bombay receipts for the week were 3,000 bales, against 10,000 last year. Shipments to the continent 6,000, against 2,000 last year. New Orleans declined 19 points last week and 35,221 läst year. Thus far this week 275,380, against 231,216 thus far last week. Spot cotton in New York was dull at 1-16c decline; middling 716-18c, against 9 3-16c a year ago. New Orleans, Norfolk, Augusta and St. Louis declined 1-16c and Savannah and Baltimore ½c. New Orleans sold 6,000 Memphis 2,000, Augusta 1,920 and Savannah 1,379 bales. The exports from the ports were 17,225 bales. Augusta received today 2,839 bales, against 1,872 last week and 1,687 last year; Memphis 749, against 975 last week and 3,022 last year; Houston 8,769, against 8,728 last week and 12,330 last year. Houston expects tomorrow 14,000 to 15,000, against 10,331 a year ago; New Orleans 18,000 last year. Opinions as to the bureau report in New York range from 64 to 70 per cent. If the report should show a less percentage than last month we are going to experience a violent advance.

Closed steady; sales 52,200 bales.

Kubbard Bros. & Co.'s Cotton Letter. New York, October 8 .- Liverpool was dising to the home markets this morning in failing to respond to our improve-ment of last evening, and, though the market has been of the best character. market has been of the best character, prices (baye slowly yielded to the combine pressure of cotton from the south for immediate delivery and the offerings from Europe. These sales have carried the market to the lowest point touched on the decline from the publication of the September bureau report, and show the offect of the bureau report and show the effect of the early movement of the crop upon a limited speculation. The trade is afraid of a continuance of this movement at a time when the merchants of the country are disposed to await the result of the election with small stocks of goods of every kind, not knowing what will happen after the election. A large estimate from Houston, which subsequently proved incorrect for the receipts tomorrow, brought about a sharp liquidation of long cotton for Wall street account. This liquidation caused a decline to 7.75 for January, but when the correction was received the market railied to the close. The movement this week points to 415,000 bales coming into sight, against earlier estimates of 425,000 bales. bureau report and show the effect of the

Riordan & Co.'s Cotton Letter. New York, October 8.—(Special.)—Cotton held its own fairly well in the forenoon. January opened at 7.92, advanced to 7.95 and fluctuated between those prices until after noon. The announcement of heavy receipts at New Orleans tomorrow caused liquidation among the room traders, which sent January down to 7.85. At that price sent January down to 7.85. At that price a prominent Wall street operator began to unload. His holdings were heavy- and were not liquidated until January had sold at 7.75. Then a somewhat more cheerful feeling followed and a reaction of a few points took place. January closed at 7.800 7.81, with the tone steady. Everybody is easerly watching the Teccipis, and until they slacken we hardly expect the confident buying that is necessary to lift the market.

The Dry Goods Market.

New York, October 8.-The course of the ry goods market today has not deviated from recent experiences in any depart-ment. The attendance of buyers is limited and store trade slow, while business arisfrom mail orders is still of very moder-volume only. There is no change in general tone nor any alteration in as in any direction.

tures there opened partially 1 point higher, but reacted and declined 1 to 2 points.
Cotton causeric: Prices declined today under the influence of lower market in Liverpool both for futures and spots and selling for Liverpool and local account. Stop orders were reached, contributing to the depression. There was a brief rally after the first transactions on some cover-ing by shorts, but prices again weakened and declined, closing at near the bottom figures of the day. Just before the close and declined, closing at near the bottom figures of the day. Just before the close there was a slight rally, due to covering of shorts and some commission houses buying. Reports in circulation that Fall River spinners would take action looking to the shutting down of mills until after election, but these reports were denied.

#### THE STOCK MARKET.

General List Closed Steady at Gains of 1-4 to 1 1-4 Per Cent.

York, October 8 .- Trading at the stock exchange was fairly active today, 240,502 shares changing hands, but the great bulk of the business was in a few stocks, indicating clearly the professional character of the dealings. Sugan alone figured for as much as 58,000 shares, and St. Paul, Baltimore and Quincy and Manhattan followed with transactions of 33,800, 21,600 and 20,600 shares, respectively. Nothing else on the list was traded in to the extent of 9,000 full shares. During the early part of the day the market was feverish and unsettled under sales for both the long and short accounts. Continued liquidations in Sugar had an adverse influence on the whole market, and small holder realized freely in the Grangers, Manhattan and other stocks. The decline was equal sequently, under the influence of easier money and the news of further engage-ments of gold in London for shipment to this side, speculation assumed a stronger tone and prices advanced all along the line. Manhattan rose rapidly from 88% to 91% on a revival of the rumors about a pending deal with the Metropolitan Traction, and Tobacco made an equally sharp advance on covering of short contracts. This stock sold up from 65% to 68%. The general list improved ¼ to 1% per cent, and the rise was well maintained until just at the close, when Sugar suddenly fell from 107% to 107 under heavy sales. Louisville and Nashville was strengthened by the favorable character of the annual showing made public yesterday, and on a bellef that the Thomas-Ryan-Seaboard Air-Line deal will put a speedy end to the rate troubles in the south. The market closed weak for Sugar and steady for the general list Net changes show gains of 14 to 114 per ceri. Tobacco and Manhattan leading. Sugar lost % per cent on the day. #### THE CHICAGO MARKET

BAILBOAD STOCKS.

Wheat Surprised Traders and vanced 1 Cent.

Chicago, October 8.-The wheat market furnished another surprise today by making a sharp advance in price, when everybody was building hope on a break. The session started in all right, according to the popular theory, but later on proprogramme, and those who had been in the selling earlier were obliged to assume the roll of buyers. December wheat opened from 67%667%c, sold between 67%6% and 69%c, closing at 65%68%c, Ic higher than yesterday. Cash wheat was firm and Ic Corn was quiet and firm, notwithstanding

Corn was quiet and firm, notwithstanding the weakness which prevailed in wheat carly. May corn opened at 26c, sold between 25% and 26 and 26½c, closing at 26‰g 26½c, ‰g½c higher than yesterday. Cash corn was steady and grew firmer as wheat and corn hardened. Not much interest was displayed, however, and trading was confined to local dealings. May oats closed ½@¼c higher than yesterday. Cash oats were firm.

Provisions—Further improvement in the hog market was beneficial to provisions. There was a fairly good business transacted at better prices than recently rules. January pork closed 5c higher, January lard 2½c higher and January ribs 5@7½c higher.

Paine-Murphy Co.'s Grain Letter.

Atlanta, October 8.—The market opened quite weak, due to the bearish feel ng that prevailed yesterday and large receipts in the northwest. The Chicago crowd sold for a further decline, but there was free buying by some of the buil leaders who have been selling out the last two or three days, and some strong outside parties. There was considerable wheat sold for both short and long account. Wheat was probably bought back later in the day. Cables & did not show the weakness that our market did yesterday, opening only \( \frac{1}{2} \)d lower and closing for some futures \( \frac{1}{2} \)d higher than last night. Cash wheat in Minneapolis was strong. New York reported a fair export demand and clearances were about \( \frac{2}{2} \),000 bushels. The market ruled contrary to general expectations, as it was expected that tomorrow being a holiday in Chicago there would be considerable selling out, but instead shorts were the more nervous, feeling that our advance today will probably bring considerable higher cables in the morning and cause strength in the other American markets. The advance from low point to high was about \( \frac{1}{2} \)e. The about \( \frac{8}{2} \)e. The was quite free selling by early buyers and prices wavered, showing some reaction. The buying today was by strong parties and demonstrates conclusively that the feeling is still bullish with a tendency to make purchase on the declines. The action of Liverpool also shows strength in the market.

The only foreign market that was weak was Berlin, which closed from \( \frac{1}{2} \) to 2c per

market:
The only foreign market that was weak was Berlin, which closed from ½ to 2c per bushel lower. Paris was quoted about 1c higher. Late cables from Liverpool quoted a good demand at the advance with 20,00 quarters of California wheat ordered to Calontia.

quarters of California wheat ordered to Calcutta.

Corn was quite firm during the whole session, opening prices being the lowest of the day. The market was later helped by strength in provisions and the advance in wheat. The large estimated cars for tomorrow—1,200 cars—checked the advance and caused some selling, but prices held firm.

The provision market displayed strength on further buying of January product and the light receipts of hogs at the Chicago yards—27,000 against 35,000 estimated—with prices 5 to 10c higher. There is nothing new to mention other than what we mentioned previously—that packers are holding their cash property tightly and to all indications endeavoring to advance the price of January produce in order to make better sales against their holdings and the expected large run of hogs in December.

#### ABOUT THE ARCTIC REGION. Lieutenant Peary Talks of the North

From The New York Advertiser.
Lieutenant Robert E. Peary, United
States navy, who has spent the greater
part of the last five years so near the
north pole that he could almost see the
top of it, and who reached Sidney, Cape Breton, from his latest excursion a week ago on his ship to Hope, arrived in the city yesterday. Lieutenant Peary's last summer in the

polar regions was almost entirely devoted to collecting Arctic specimens, and his party did not try to push into the hitherto unattained latitude. Polaris House, in lati-tude 78 degrees thirty minutes north, which was reached by Hall in 1872, was the limit of the lieutenant's exploration, and from there he worked back, picking up as he came the scientific parties headed by Professor Albert Burton, of the Massa-chusetts Institute of Technology, which spent five weeks at Omenak fjord, Green-land, and Professor Ralph Tarr, of Cornell university, which had been landed at Wilcox Head, south of Melville bay. These parties, although they went out on the Hope, were in no way connected with Lieutenant Peary's expedition. Their geological discoveries and studies of ice formations and other natural phenomena of the northern seas have had most valuable results, and the institutions sending them out will be further rewarded by fine collections

of specimens.

After landing the second expedition Lieutenant Peary proceeded nearly 100 miles further north, and although considerable trouble was experienced with the ice, which was unusually heavy, the party had uniformly favorable weather for the prose-cution of their work. How well they suc-ceeded in this is shown by the fact that Lieutenant Peary will shortly be followed to this city by two car loads of valuable specimens of animal life and native implements, together with some tons of fossil remains from the frozen zones. This unique collection goes to the American Museum of Natural History in this city, it having been secured expressly for it by Lieutenant Peary. Besides this the expedi tion brought back, as the result of a ten hour chase over the ice floes, two large specimens of the polar bear-polaris and assiopea-and a team fo ten Eskim logs. The bears were caught with las soes, and their capture was attended with considerable danger to the hunters. Ar-ticles of Eskimo wearing apparel of every known sort, weapons, boats, household utensils from Greenland, Cumberland gulf and Hudson straits are included in the col-lection now on its way to this city, as well as skeletons of Arctic birds and animals kins of the reindeer, walrus, seals and white whales.

Lieutenant Peary, who, with his wife, is staying at the Grand Union hotel, was seen yesterday by a reporter for The Morning Advertiser, and expressed himself as well satisfied with the results of his sum-mer's work. He was looking very well and related with evident pleasure that

mer's work, He was looking very wen, and related with evident pleasure that every member of his party had returned in fine condition, and that no accident of any consequence had marred the trip. Regarding his future plans, he said he was still undecided, but it was very unlikely that he would re-enter the Arctic regions next summer, although he might direct an expedition, which would probably be sent for the same purpose as the one which has just returned.

In discussing the recent results of Nansen's expedition and the probable outcome of the Jackson expedition, Lieutenant Peary found considerable to encourage him in his theory that the route favored by himself through the archipelago to the north of Greenland is the only feasible one. Should the present attempt of Jackson prove the Franz Josef land route impracticable, Lieutenant Peary declares that his will be the only one remaining, now that Nansen has also failed. Speaking of the work of this latter explorer, the lieutenant said:

"I think it was really wonderful, and,

work of this latter explorer, the lieutenant said:

"I think it was really wonderful, and, apart from other things accomplished, it had one result of immense value—it showed the route he took was an impossible one. As he could not reach the pole by this route, I think other explorers can safely leave it out of their calculations."

The probable outcome of Jackson's expedition Lieutenant Peary would not give an opinion upon, further than the conservative statement that while it was possible, he scarcely thought it probable it would reach the pole. He stated, however, that he was firmer than ever in the belief that the successful route, when it was found, would be largely overland.

"Land is an essential for Arctic travel," he said, "as the ice is too rough for the sledges, and no explorer can make suffi-

cient headway against it to succeed in so long a journey."
The lieutenant will probably remain in the city until the collection arrives to see that it is intact and in good order. After that, he says his plans are still indefinite.

#### One of the Last Halting Places of the Confederacy.

SOON TO BE SOLD.

From The Baltimore Sun.
The early sale is announced of one of the most interesting places in the south, about which many historic recollections of the confederacy still linger. The property to be sold is known as the old Burt place, in the town of Abbeville, S. C. There it was that the last meeting of the confederate cabinet was held before the confederacy was dissolved. After the final consultation of the cabinet members with their chief, President Davis, the confederacy was dissolved, and Mr. Davis began the flight that ended in his capture in Georgia. How fascinating are the belts and sashes which form such important items in the fashions of the moment. Close-litting, deep-folded belts made of satin or silk are worn with toilets of silk, fine mohair and grass lawn. The newest ribbon belts are finished off with a flat piping on each side of white silk or satin, but if the belt is black or dark in color, the piping may be in a light, contrasting shade. Loosely draped sashes look best on youthful figures, and folded belts crossed in front are most becoming to slender shapes. Even plain dresses may be converted into smart, stylish toilets if the belt or sesh and the collar and bows are chosen to correspond and in good taste.

This season's millinery ribbons are decidedly narrower than those of last year, and a great number of novel designs is promised. One of the handsomest patterns has a center in solid moire, with half-inch edges in chine figured effect. Satin and taffetuare popular in plain, plaid and figured designs, and at least six rosettes are used on larger shapes.

Bohemian Baubles.

Unless you have a bit of Bohemian glass on your tellet table you have no right to flatter yourself that you are up to

hemian glass salve boxes, pin trays and hairpin cases, but as yet the brush with a glass back has not been seen. Ivory toilet articles decorated with gold are much in favor with those who can afford them. Upon a highly-polished mahogany table they look very beautiful.

The Bohemian glass puffboxes are exquisite affairs, and much less expensive than the gold or silver ones. The puff looks very pretty, showing through the glass box.

Toilet articles of this delicately colored glass are one of the present fads of the society woman. It is not the plain Bohemian glass that she favors, that the glass that is studded with imitation jewels and wrought with gilt designs.

Correct Calling Costumes.

Some other card and calling rules that the present code of etiquette ordains are as follows: When calling on a person who is a visitor in a private house, the caller must always ask and leave a card for the must always ask and leave a card for the hostess also. When making a call on a young married lady, the visitor must ask and leave a card for the young woman's mother. A bride should be called on after her marriage by all the calling acquaintances of her and the groom's families who were invited to the wedding or received cards anneuncing it. Personal visits should not be returned by card unless there is some good reason for doing so. A hostess should call on a lady before inviting her to an entertainment, unless the latter owes a call to the entertainer. Cards with their home address on them can be exchanged by people who meet in traveling or visitby people who meet in traveling or visiting, if both parties wish to continue the

It is proper to call on a young lady when her engagement is announced, and on people on their return from a long or for eign trip; on a mother after her daughter's wedding, and on a stranger who is visit ing a friend. But we might go on ad in finitum and not be able to give all the minor points in card and calling eti-quette. The rules and regulations mentioned are the principal ones, however and generally accepted by those whose actions sets the fashion in such matters.

Hints for the Household.

An excellent sweet that few housewives think of is tomato honey, the flavor of which can scarcely be distinguished from real honey. To each pound of honey add the gruted peel of one lemon and a half dozen fresh peach leaves. Place them in a preserving kettle and cook them slowl until the tomatoes fall into pieces; the strain through a bag. To each pint o juice allow one pound of sugar and the juice of one lemon. Boil these together half an hour, or until a thick jelly is formed when cold. Fill glasses with the liquid jelly, and do not cover them until the mixture becomes cold. This jelly is always a source of delight at the nursery

Ag it quickly by rubbing it hard with a flannel. Mix together one pint of linseed oil and half a pint of kerosene, wet a flannel with the oil mixture and rub the cleaned furniture. Rest half an hour before taking a fresh piece of flannel, and then by vigorous rubpiece of flannel, and then by vigorous rub bing polish the wood until it shines like glass. This will not injure the thinness wood and is an easy method of keeping furniture bright. The odor soon disappears if the windows are left open.

In removing stains or grease spots from delicate-colored materials, the cleaning mixture should be applied in a circle around the spot and should be worked to-ward the center. Then sponge the place with a clean flannel and rub until dry.

Pie crust is always better if it can be made the day before it is baked, folding the paste in a close roll after it is made and putting it in a cold place. When again rolled out it will make, when baked, a lighter and more flaky crust.

ON THEIR BLIND SIDE Detectives Catch a Number of T.gers in

Shrewd Ways. PREROGATIVE OF WASHWOMEN

The Recorder Declares She Has Right To Wear What She Washes-No Law Against It.

Yesterday was a "blind tiger" day in the local police court. Judge Andy was sur-rounded by a composite cotorie of varied colored tigers, who having taken pity on the thirsty politicians the day before, had attempted to moisten their throats-just for accommodation.

for accommodation.

Sagaclous detectives were present, and a dozen or more bottles full of booze were exhibited prominently, at which the various tigers looked with an ominous fear. They had seen those bottles somewhere before, but their fondness for the contents had suddenly flown.

Not all the cases made Wednesday were tried. Many were postponed until today and tomorrow. There were several interesting hearings, however, and several tigers swore they would never do so any more. The most important was that of Mrs. Grace Chandler, the proprietress of the American hotel, which took a decidedly unexpected turn. Mrs. Chandler was accompanied by Mrs. Mary Goode, one of her loggers, who had offered her services as lodgers, who had offered her services as a witness. By an unexpected turn, however, Mrs. Chandler was acquitted and Mrs. Goode fined \$50 and costs.

The young man who was sent out as decoy by the detectives to buy the booze was greeted at the hotel by Mrs. Goode. the two were at once congental and two bottles of beer were consumed, for which the visitor paid a half dollar. The booze belonged to Mrs. Chandler, but the judge held that Mrs. Goode was responsible for selling the stuff, and punished her accordingly. The fine was quickly paid. The case against George Edwards, the negro who was caught dispensing the booze in the store of Hanmack, Lucas & Co., was also postponed until today on the same plea. The cases against George Ed-wards, George Watson and Walter John-son, all colored, will also be tried today.

The Case Against Lula Mathews. Judge Calhoun established a peculiar precedent yesterday afternoon when he turned Lula Mathews, the negro woman who has been washing for Mrs. Benair and was caught Wednesday night wearing the white woman's clothes while entertaining a colored bean.

Mrs. Benair was present in court, and

the evidence was positive against the woman that she had appropriated the ciothes to her own use, but Judge Calhoun stated he was powerless to punish her and turned her loose. He stated there was no charg under which she could be prosecuted in the police court, as the clothes were finalsecured by their proper owner, and were surrendered by the defendant.
According to this decision, washwomen can wear their employers clothes without restriction, and there is no law to punish them. Larceny after frust is the hearest charge to it, but Judge Calhoun would not bond over the woman on that ground. As the judge stated, it was an offense "Doman ab injuria" in the style of the

# SUES FOR DAMAGES A WIFE'S SAD STORY

Georgia and Florida Telephone Co.

SAYS CONTRACT WAS FORFEIT SAYS HE TRIED TO KILL HER

Suit Was Filed Yesterday Against the City for Damages—Pause Case Pending in the City Court.

A surit for \$10,000 damages was filed yes terday by J. O. Bradley, of Macon, Ga. through his attorney, Mr. Burton Smith, against the Georgia and Florida Telephone Construction Company.

Mr. Bradley brings the litigation on the grounds that he was made a party to a contract entered into by himself and the telephone company which was never carried out, and claims that he was promised \$5,000 worth of the company's bonds and an equal amount of stock, which was never delivered, although he has made frequent

demand for it. It is alleged in the petition that the telephone company, which was composed of Simon Baer, president; J. S. James, secretary, and others, sent J. H. Blakely, who was the general manager of the company, to Macon, and that Mr. Blakely offered him the stocks and bonds on the condition that he would interest the mercants and citizens of Macon in the new company and secure stock and lease the telephones of the com-

pany for a term of five years.

Mr. Bradley claims that Mr. Blakely did not return when he promised to do so, and although he received a number of letters from both Mr. Baer and Mr. James, asking him to wait and have patience, that he was never given the bonds and stocks and the date for the organization of the Macon ex change, which was last August, passed and the contract was forfeited. He also claims that he was told that the new telephone company was perfectly solvent and was able to place in operation an exchange which would

be valued at \$200,000.

The charge is made in the petition that the managers and officers of the company failed entirely to perform any of the obligations of their contract with Mr. Brad-ley and that the publication of the charter for the new company was stopped because the newspaper publishing the advertisement was not paid.

Bradley claims that he carried out fully

his obligations of the contract

He claims that a large and dangerou hole was open in the alley and when he stepped upon the place he fell through, receiving serious injuries. He claims the city was negligent in not placing the hole in repair, as the place was dangerous to pe-destrians. The amount of damage asked for Pause Case Still Pending.

The damage case which was brought by Robert Pause against the city on account of the erection of the Forsyth street bridge is still pending in the first division of the city court before Judge Reid.

Mr. Pause, who was conducting a restau rant on Forsyth street at the time that the bridge was built, claims that the light was cut off and on account of the obstructions necessary for the work his customers went elsewhere. He sues for \$10,000 damages and is represented by John C. Reid and Mord Foote, Jr. The city is represented by Attorneys Anderson and Westmoreland. The case has been on trial two days and will probably go to the jury this morning.

### EXTRA COST FOR DEFAULTERS.

Merchants Must Pay for Failure To Take Out New Licenses Yesterday. Yesterday was the last day for the payment of city license fees and the city clerks and city tax collector's offices were

thronged with merchants and business men taking out new licenses. All who failed to pay will now be required to pay an extra cost of collection fee, amounting to \$1.50 in each instance

The license quarter expired on September 30th and the new licenses run until January 1st next. Several thousand dollars was collected exeterday and turned over to the city treasurer. Clerks Phillips, Buchanan and Riley and

Collectors Payne, Holcomb and Collier were kept busy during the day. License Inspectors Saxe and Baker will now pro ceed to collect the defaulters' license fees. They will first notify every merchant who failed to take out a license that he must pay up or quit business.

J. O. Bradley Brings Action Against the Mrs. Usina Testifies in Court of Cruel Treatment from Her Husband.

Superior Court Grants Two Divorce Verdicts and Other Similar Cases Are on the Docket.

Alleged cruel treatment, the use of profane language and habitual intoxication were the grounds upon which a total divorce was granted Mrs. Josephine C. Using in the superior court yesterday morning before Judge Lumpkin.

Mrs. Usina, before her marriage with Frank Usina, bore the maiden name of Josephine C. Masters. The marriage occurred in St. Augustine, Fla., March 4, 1878.
The testimony of the wife yesterday showed that for seven years they lived happily, but after that period, or about nine years ago, her husband began to cruelly treat and abuse her, constantly increasing in severity, which treatment she has never condoned or forgiven and which she claims she tolerated solely for the sake and on account of her children. During those nine years Mrs. Usina says

she was sharrefully and cruelly treated, of ten striking her and using vulgar and pro-fane language, being intoxicated most of the time and frequently absenting himself from home for days at a time and refus-ing to provide for the support of his

affectionate and dutiful wife.
"During the past three or four years,"
said she, "his treatment has been especially unkind and cruel. In August, 1890, he came home in a very intoxicated condition, and upon entering the house began to curse and abuse me and finally made toward me with his hand raised, as if to strike me. When I attempted to get away from him, he jumped upon me and threw me to the floor, held me down, opened his pocket knife and attempted to cut my throat and was only stopped in his attempt by my was only stopped in his attempt loud and long-continued outcries." She said one morning at 2 o'clock he came

home. She said she was waiting for him, as she could not sleep, being afraid he was drunk and had been arrested. He began to abuse her when he entered the house, and seizing her suddenly threw her from the piazza to the ground. She says she has since been compelled to support herself and children. She claims that his cruel treatment has been continued and that oftentimes he has struck her with his fists and at times actually kicked her. In November, 1893, Mrs. Usina say she was sent by her husband to Atlanta and he promised to follow her or at least to send her money. She declares she has received only \$13 during that time, and was com pelled to work and depend upon her mother and the charity of friends for her sup
